## **Important Information Regarding Calculations:**

Subsequent service purchase costs may vary substantially from prior cost invoices due to changes in member information, changes in plan assumptions, or changes in actuarial cost methods.

## **Impact of Air Time Purchase on Health Insurance:**

If you purchase Air Time for retirement eligibility on or after July 1, 2011, and use that time to retire earlier than you would otherwise be eligible, you must pay the increase in your employer's share of your health insurance premium until you reach the age at which you would have reached regular retirement eligibility. If you purchased Air Time to reach your minimum years of service needed to retire and did not earn enough years of service on years actually worked to meet the minimum retirement eligibility, you will pay the increase in the employer's share of your health insurance premium for life. Twenty years at any age is considered a regular retirement, therefore, if you actually worked twenty years you would not pay a premium increase. However, twenty year retirement eligibility does not apply to Corrections Secondary or members of the Wildlife Plan hired on or after July 1, 2003. For more information about health insurance payments, consult the Office of Group Benefits rate schedule at [www.groupbenefits.org](http://www.groupbenefits.org).
