

# LASERS WEBSITE

*Our website contains valuable resources for members such as latest news, upcoming seminars, recent legislation, forms, investment information, and much more.*

The LASERS website, [www.lasersonline.org](http://www.lasersonline.org), contains valuable resources for members such as latest news, upcoming seminars, recent legislation, forms, investment information, and much more. You can also sign up for Member Connection emails on our website.

In addition to the general information on the website, active members and benefit recipients can use the site to securely access their LASERS records as described below:

## **myLASERS**

LASERS online account management system, myLASERS, allows members and benefit recipients to check the status of applications and requests, upload documents, utilize the message center, request an appointment with a LASERS representative, and more. With myLASERS, you can access your account securely at anytime, anywhere, and from any device.

First time users must create a new account and set-up Multi-Factor Authentication (MFA). There is a two-step process to creating a myLASERS account. You must first create a secure LASERS account, then register for access to the myLASERS site.

Once registered, you will sign in using your email address, password, and MFA security code sent via text or voice call. **Each time you log in**, a new security code will be sent via text or voice call to the phone number used during registration. Therefore, you must have access to the device with that phone number in order to be able to access myLASERS. For more information on myLASERS, visit [www.lasersonline.org/mylasers-info/](http://www.lasersonline.org/mylasers-info/).
