

Response to
Senate Resolution No.175
(2005 Regular Session)
Preliminary

For the Period April 1 to June 30, 2022

Pursuant to SR 175 of the 2005 Regular Louisiana Legislative Session, each retirement system is to provide a quarterly report of their investments commencing with the quarter beginning July 1, 2005. The following is the quarterly report for LASERS portfolio for the period April 1 to June 30, 2022. The report provides a listing of LASERS investments by asset class, amount of funds invested and with whom, annual returns on the investments and the management fees.

While market returns provide a snapshot view of investment performance, readers should keep in mind that actuarial returns, which are smoothed over five years to offset market volatility, are a better indicator of the system's ability to consistently achieve the assumed annual actuarial return of 7.40% effective July 1, 2021.

Therefore, in addition to the data presented in the quarterly SR 175 - Senate Resolution No. 175 Report, the following information is given to further illustrate the System's status.

As of June 30, 2021, LASERS 30-year actuarial return was 7.57%.

⁷ The fund was funded 5/2022

⁸ The fund was funded 3/2022

⁹ The net asset values and returns are reflected net of fees for all Alternatives,

and includes \$0.5 million for Paamco and \$2.5 million for Stark, which are being liquidated.

¹⁰ The Total Plan Market Value includes \$114.9 million in cash/cash equivalents.

The Total Quarterly Dollar Amount does not include \$288,790 for Self-Directed Plan and Optional Retirement Plan.

The Total Quarterly Dollar Amount does not include \$1,329 in fees for liquidating funds.

The Total Quarterly Dollar Amount includes fee adjustments from prior periods.

Annual Basis Points for fees vary and may be based on historical cost, net asset value, invested capital or other similar items.

For the majority of LASERS investment managers, management fees are paid quarterly in arrears, based upon the market value of assets under its management, excluding any cash balance, as reported by LASERS custodian bank, and are calculated as follows:

The fee is calculated at the end of each calendar quarter as follows: (Average of market value of assets under management on last business day of each of the four preceding calendar months, which shall not include funds that are managed by LASERS custodian bank) times the annual percentage fee schedule (basis points) divided by four. Fees on invested contributions and withdrawals during each calendar quarter will be computed separately on a pro-rate basis. It is not necessary to pro-rate contributions and withdrawals for Month 1 of the calculation period. Contributions and withdrawals are to be calculated as such:

Contributions: (month end market value for the month in which the contribution was made less any cash balance) minus the amount of the contribution, and then multiplied by the number of days the funds were not in the account, divided by the total number of days for the month.

Withdrawals: (month end market value for the month in which the withdrawal was made less any cash balance) plus the amount of the withdrawal, and then multiplied by the number of days the funds were in the account, divided by the total number of days for the month.

The managers shall provide a monthly reconciliation of their records to LASERS custodian bank. Should the manager fail to reconcile LASERS portfolio on a timely basis, LASERS maintains the right to withhold payment of the management fee until the portfolio has been reconciled to LASERS satisfaction.

Private Equity earns fees as a percentage of LASERS capital commitment to each fund. The fees are deducted from the portfolios on a quarterly basis and verified with the receipt of each manager's annual audited financials.

Investment Terminology

Annual Return Annualized returns express the rate of return over a

given time period on an annual basis, or as a return per year. An annualized return can be calculated over any period one year or longer and is useful for comparing two or more portfolios over similar time

periods.

Basis Point One gradation on a 100-point scale which is used in

expressing variations on the yield of bonds. A basis point is equal to one-hundreth of a percentage point.

Concentrated Portfolio A portfolio that generally has fewer securities than

traditional portfolios.

Index Fund A fund (or account) comprised of securities, the

characteristics of which will produce a return which will replicate (or substantially replicate) a designated

securities index.

Management Fee The fee charged by the investment manager for

supervision of an investment. Generally quoted in

terms of a percent of assets.

Market Value The current or prevailing price of a security or

commodity as indicated by current market quotations, and therefore the price at which additional amounts

can presumably be purchased or sold.

Universe The list of all assets eligible for inclusion in a portfolio.
