October 27, 2022

Dear Board Members:

We are pleased to present to you the *Annual Comprehensive Financial Report* (ACFR) of the Louisiana State Employees' Retirement System (LASERS or the System) for the fiscal years ended June 30, 2022 and 2021. The 2021-2022 fiscal year saw capital markets decline sharply due to a number of factors including inflation reaching a multi-decade high, aggressive monetary policy tightening by the Federal Reserve, and lingering effects of the Russia-Ukraine conflict. During this fiscal year, the System felt the impact of those on-going economic and market struggles. For the fiscal year ending June 30, 2022, LASERS investment portfolio realized a gross-of-fees, time-weighted return on investment assets of -7.2%.

This report includes a wealth of information regarding the activities of LASERS during the past fiscal year, providing clear evidence that LASERS is accomplishing its mission of providing a sound retirement plan for our members through prudent management and exceptional customer service. We trust that you and the other members will find this ACFR helpful in understanding your public employees' retirement system, which is dedicated to protecting your contributions and maximizing your return.

Management Responsibility

This report consists of management's representation concerning LASERS finances. Management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the assets from loss, theft, or misuse, and to compile sufficient, reliable information for the preparation of LASERS financial statements in conformity with generally accepted accounting principles. The internal control framework has been designed to provide reasonable, rather than absolute assurance, that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

BOARD OF TRUSTEES:

Judge William Kleinpeter, Chair Shannon Templet, Vice Chair Thomas Bickham Virginia Burton Charles F. Castille Comm'r Jay Dardenne Byron P. Decoteau, Jr. Ternisa Hutchinson Rep. Barry Ivey Amy A. Mathews

Barbara McManus Sen. Barrow Peacock, *Designee* Sen. Edward Price Hon. John Schroder

Cindy Rougeou, Executive Director

INTRODUCTORY SECTION

Our independent external auditors, Postlethwaite & Netterville, have conducted an audit of the basic financial statements in accordance with auditing standards generally accepted in the United States of America, performing such tests and other procedures as they deem necessary to express an opinion in their report to the Board. The external auditors also have full and unrestricted access to the Board to discuss their audit and related findings as to the integrity of the financial reporting and adequacy of internal control systems.

Financial Information

The basic financial statements have been prepared in accordance with generally accepted accounting principles applied on a consistent basis as promulgated by the Governmental Accounting Standards Board (GASB). The Management's Discussion and Analysis (MD&A) includes a narrative introduction, overview, and analysis to accompany the basic financial statements. This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with the document. LASERS MD&A can be found immediately following the reports of the independent auditors in the Financial Section of this report.

Profile of LASERS

LASERS is a cost-sharing multiple-employer defined benefit plan, established by the state legislature in 1946, with the first members joining the System on July 1, 1947. The System is a public trust fund created to provide retirement allowances and other benefits for state officers and employees and their beneficiaries. All invested funds, cash, and property are held in the name of LASERS for the sole benefit of the membership. A thirteen-member Board of Trustees (comprised of six active members, three retired members, and four ex officio members) governs the System. The Board administers the programs and appoints key management personnel including the Executive Director, Chief of Staff, Chief Administrative Officer, and the Chief Investment Officer.

The Board of Trustees annually approves an operating budget for administrative expenses that is prepared by staff to address member and employer needs while keeping costs reasonable. The Board must also approve any changes in the budget during the year. In addition to the Trustees' approval, the budget is approved by the Louisiana Joint Legislative Committee on the Budget.

Investments

For the fiscal year, LASERS investment portfolio realized a gross-of-fees, time-weighted return on investment assets of -7.2%. The plan earned an annualized return of 12.2% for the two-year period, 8.2% for the six-year period, and 7.8% for the ten-year period. The foundation of the Investment Division is the asset allocation chosen by the Board of Trustees, which is comprehensively studied, monitored, and adjusted to produce an optimal mix of assets in order to maximize returns while minimizing risk. A more detailed exhibit of investment performance and a summary of LASERS Statement of Investment Objectives can be found in the Investment Section of this report.

Funding

Annually, the LASERS actuary determines the funding requirements needed to meet current and future benefit obligations. Actuarial contributions are based on normal cost and amortization of the unfunded accrued liability, which has existed since the System's inception. Employers are required to pay the percentage of total payroll equal to the normal cost plus an amount sufficient to amortize the unfunded accrued liability as outlined in Louisiana Revised Statute 11:102 as it pertains to LASERS. This year the LASERS actuary is recommending that the Public Retirement Systems' Actuarial Committee (PRSAC) approve a composite employer contribution rate of 41.9% for the fiscal year ending June 30, 2024.

The actuarial value of member benefit liabilities exceeds the value of actuarial assets. At year-end, the ratio of the value of actuarial assets to actuarial accrued liabilities increased to 66.5% and the System's unfunded actuarial accrued liability increased to \$7.0 billion, primarily a result of interest on the unfunded liability, a discount rate change, other experience loss, and an investment experience loss. The investment yield on the actuarial value of assets was 7.46% for 30 years, which is greater than the net actuarial assumed rate of 7.25%. LASERS Board reduced the discount rate to 7.25% from 7.4% effective July 1, 2022. Over the past 11 years, LASERS has reduced the discount rate from 8.25% to 7.25% and changed the actuarial cost method from projected unit credit to entry age normal which in total have increased the unfunded accrued liability by \$2.2 billion. If not for these changes, the funded ratio would be approximately 73.8%. However, these changes have improved the financial stability of the plan by reducing the potential for future contribution rate increases. If all actuarial assumptions are realized, the funded ratio is expected to steadily increase as unfunded liabilities are amortized in accordance with the plan's funding policy. Additional information regarding the financial condition of the pension trust fund can be found in the Actuarial Section of this report.

Major Initiatives

Part of our mission is to provide exceptional customer service to our members and contributing agencies as well as to improve the financial security of our members. Key accomplishments for the past year are summarized below:

System Governance

LASERS has positioned itself for the future with significant objectives and performance indicators. The Board of Trustees continues to follow an adopted Board Resolution expressing that the following matters have reached a critical state of importance to System members elevating them to the status of significant board issues:

- Identification and implementation of a legislatively enacted mechanism for the funding and granting of an annual cost-of-living adjustment for eligible System retirees in a reliable and dependable manner;
- 2. Preservation of the defined benefit plan for current and future LASERS members;
- 3. Preservation of Board autonomy as well as its primary composition of elected active and retired system members; and
- 4. While continuing to oppose mandatory Social Security participation, seek the reduction or

elimination of the federal offsets, the Windfall Elimination Provision and the Government Pension Offset.

Legislation

The 2022 Regular Session of the Louisiana Legislature resulted in the passage of the following legislation, which affects the Plan administered by LASERS:

- Act 656 grants a one-time supplemental payment to certain eligible retirees and beneficiaries.
- Act 96 provides relative to membership in the LASERS Hazardous Duty Services Plan.
- Act 170 makes a supplemental appropriation of \$21.8 million to LASERS to apply to the balance of the initial unfunded accrued liability.

Technology Improvements

Over the past year, we have addressed the following technology improvements:

- Implemented a new cloud-based phone system including call center management;
- Implemented cloud backups with immutable features to resist cyber-attacks;
- Improved security through removal of legacy systems, increased third-party analysis, improved device and server monitoring, incident response planning, adding multi-factor authentication (MFA), blocking physical access, adding cyber insurance, and implementation of next-generation edge security devices;
- Improved management of all devices both in the office and remotely with enhanced Master Data Management (MDM) tools;
- Implemented IT support and security controls for a hybrid workforce;
- Implemented new Board management software to improve communication and reduce need for consumables;
- Implemented cloud-based IT service desk ticket managing system which will ultimately be used as member contact management system.

Our next strategic projects will include:

- Continued focus on security with managed detection and response;
- Designing and implementing a new Employer Self-Service System with improvements to the member portal;
- Pilot and implement cloud source control and agency contact management.

Long-term Investment Program

LASERS had just under \$12.5 billion under management as of June 30, 2022. This is an increase of \$3.5 billion over the last decade, illustrating the prudent management of the plan.

The Investment Program continuously maintains its commitment to a broadly diversified portfolio and achieving its actuarial rate of return with the least possible risk. LASERS allocation includes equities, fixed income, and alternative investments, which consists of private markets and absolute return strategies. We made extensive asset allocation changes in October 2020 following the dynamically changed investment market post COVID-19. Our most recent asset allocation changes were minor tweaks, which included reducing the Emerging Market Debt

allocation, eliminating the Cash allocation, and adding to Private Markets. Full implementation of the allocation remains underway.

LASERS works closely with its investment consultant to conduct a thorough asset allocation and liability review on an annual basis. In addition, our Chief Investment Officer reviews the asset allocation regularly to ensure that it is consistent with the exposure ranges set for LASERS. When necessary, funds are rebalanced, taking into consideration market conditions and transaction costs. This sound asset allocation approach does not veer off course due to market swings.

As of June 30, 2022, the System manages more than 36% of its assets internally, saving millions in management fees each year. Other cost-saving measures include monitoring investment manager trade execution costs and negotiating favorable investment management fees. The Investment Division continues to work with the custodian bank to enhance reporting capabilities, build upon the in-house trade management system, and enhance its risk management evaluation capabilities.

Online Access Expanded

Utilization of technology to improve overall agency performance, communication, and education continues to be a major initiative of LASERS to enhance customer service to its members and agencies.

LASERS launched the new online member platform, myLASERS, in December 2020, requiring all members to create a new account using Multi-Factor Authentication, increasing security features, and adding new features such as e-forms and document uploads in the program, application tracking, and communication options. Ongoing improvements and upgrades to the online platform are under consideration and will be implemented.

LASERS website, www.lasersonline.org, is continually upgraded to provide access to current System information and news, educational programs, forms, publications, legislation, investment performance, GASB resources, and a Video Library. Over the past year, LASERS produced 22 videos to reach active and retired members, the Board of Trustees, legislators, staff, and affiliate organizations with critical retirement information. The impact of these videos is far-reaching through our website Video Library and LASERS YouTube Channel.

LASERS continued to utilize the website to deliver information regarding COVID-19 building occupancy limits, appointment availability, and safety protocol for visitors.

Member Outreach Enhanced

The Member Services Division focuses on educating members, retirees, and agencies across the state on LASERS retirement options. Carefully emerging from pandemic restrictions, LASERS continues to make adjustments to the services provided to its members.

Customer Service continues to offer phone and video counseling through Microsoft Teams, in addition to in-office appointments and walk-in visitors. While the majority of LASERS Education Department presentations continue to be virtual, the introduction of some in-person seminars has started. Additionally, Member Services added a new breakout webinar series, *Know Before You*

INTRODUCTORY SECTION

Go. These shorter, topic-specific webinar sessions provide a more detailed explanation of retirement topics. The first session, "DROP vs IBO: Is Either Right for Me?", has been received by the LASERS membership with success and positive responses.

The Public Information Division (PID) began distributing content from our monthly staff newsletter, *Cybersecurity & You*, through Member Connection emails as a new initiative to educate and protect members from digital attacks.

PID also collaborated with our partners to provide targeted retirement information. Our team worked with Empower during National Retirement Security Month in October through email and social media on the topics of Deferred Compensation, myLASERS, and virtual seminar opportunities. We also participated with Retired State Employees Association (RSEA) in their virtual tour and created a companion resource webpage to support the event. The video and webpage were promoted through email, *The Beam* newsletter, and social media.

A major outreach and communications effort in 2022 involved the passage of Act 656, the One-Time Supplemental Payment legislation, which provided over 45,000 eligible LASERS retirees and beneficiaries with a one-time relief payment. A fact and resource webpage was created to educate members and the public on the legislation. Communications included the website, Member Connection emails, *The Beam* newsletter articles, and numerous social media posts.

LASERS continued and completed the year-long communications campaign promoting LASERS 75th Anniversary through a commemorative logo, the website, profiles of those who made significant contributions to LASERS, social media, print and digital publications, legislative resolutions, and a special video. The campaign celebrated our achievements, growth, strength, and continued dedication to members.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to LASERS for its *Annual Comprehensive Financial Report* (ACFR) for the fiscal year ended June 30, 2021. This was the twenty-fifth consecutive year that the System has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized ACFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of only one year. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

LASERS also received the GFOA award for its *Popular Annual Financial Report* (PAFR) entitled *LASERS Summary Annual Report*, for the fiscal year ended 2021. This was the twenty-third consecutive year LASERS has received this award. The *Popular Annual Financial Report* presents, in a less technical manner, some of the major financial, actuarial, and other interesting information for the reporting year.

In addition, LASERS received the 2021 Public Pension Standards Award. The Public Pension Coordinating Council presents this award to public employee retirement systems in recognition of their achievement of high professional standards in the areas of plan design and administration, benefits, actuarial valuations, financial reporting, investments, and membership communications. This is the eighteenth consecutive year that LASERS has received this prestigious award.

Conclusion

This report is a product of the combined efforts of the System's staff and advisors functioning under your leadership. It is intended to provide extensive and reliable information that will facilitate management decisions, serve as a means for determining compliance with legal provisions, and allow for the evaluation of responsible stewardship of the funds of the System.

We would like to recognize the teamwork and contributions of our experienced and dedicated staff. They continue to keep the best interests of our members as their top priority. As we look toward the future, we will continue to fine-tune our investment strategies to make every investment dollar count and to minimize employer contributions. Also, we will look to develop innovative programs to improve the value of the services provided to our members.

Respectfully submitted,

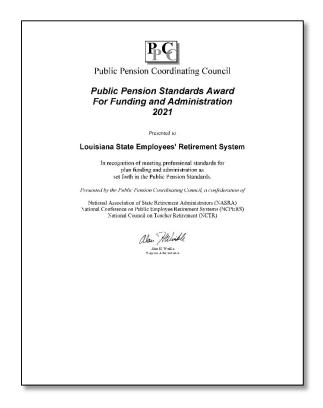

Cindy Rougeou Executive Director Arthur P. Fillastre, IV CPA Chief Financial Officer

A Professional Accounting Corporation

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Louisiana State Employees' Retirement System Baton Rouge, Louisiana

Opinion

We have audited the accompanying basic financial statements of the Louisiana State Employees' Retirement System (LASERS), a component unit of the State of Louisiana, which are comprised of the statement of fiduciary net position and the related statement of changes in fiduciary net position as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Louisiana State Employees' Retirement System basic financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Louisiana State Employees' Retirement System, as of June 30, 2022 and 2021, and the changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the LASERS and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

As disclosed in Note F to the financial statements, the financial statements include investments that are not listed on national exchanges or for which quoted market prices are not available. These investments include private markets and absolute returns. Such investments totaled \$3.5 billion and \$3.3 billion (24.2% and 20.8% of total assets, respectively) at June 30, 2022 and 2021, respectively. Where a publicly listed price is not available, the management of LASERS' uses alternative sources of information including audited financial statements, unaudited interim reports, and similar evidence to determine the fair value of the investments. Our opinion is not modified with respect to this matter.

As disclosed in Note A to the financial statements, the total pension liability for LASERS was \$20.8 billion and \$20.2 billion at June 30, 2022 and 2021, respectively. The actuarial valuations were based on various assumptions made by LASERS' actuary. Because actual experience may differ from the assumptions used in the actuarial valuation, there is a risk that the total pension liability at June 30, 2022 and 2021 could be materially different from the estimate. Our opinion is not modified with respect to this matter.

FINANCIAL SECTION

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the LASERS' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the LASERS' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the LASERS' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supporting Schedules

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the LASERS' basic financial statements. The supporting schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supporting schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, investment section, actuarial section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

Postlethwate & Nefferville

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2022, on our consideration of the LASERS' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of LASERS' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the LASERS' internal control over financial reporting and compliance.

A Professional Accounting Corporation

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Louisiana State Employees' Retirement System Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements, which are comprised of the statement of fiduciary net position and the related statement of changes in fiduciary net position, of the Louisiana State Employees' Retirement System (LASERS), a component unit of the State of Louisiana, as of and for the year ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the LASERS' basic financial statements, and have issued our report thereon dated September 26, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the LASERS' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the LASERS' internal control. Accordingly, we do not express an opinion on the effectiveness of the LASERS' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of LASERS' financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the LASERS' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of LASERS' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering LASERS' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Management's Discussion and Analysis

The following is management's discussion and analysis of the financial performance of the Louisiana State Employees' Retirement System (LASERS or the System). This narrative overview and analysis help to interpret the key elements of the financial statements, notes to the financial statements, required supplementary information, and supporting schedules for the current year. Readers are encouraged to consider the information presented here in conjunction with additional information provided in the Transmittal Letter of LASERS Annual Comprehensive Financial Report (ACFR).

Financial Highlights

- Net position restricted for pensions decreased by \$1.5 billion.
- LASERS had a Net Pension Liability of \$7.6 billion and the Net Pension Liability as a percentage of covered payroll was 376.4% as of June 30, 2022.
- Net investment income experienced a loss of \$1.0 billion for 2022 compared to a gain of \$3.7 billion for 2021.
- Total contributions increased by \$2.8 million or 0.3% to \$1.0 billion in 2022.
- Benefit payments increased by \$52.8 million or 3.8% to \$1.4 billion in 2022.
- Refund and transfer payments of member contributions increased by \$4.1 million or 13.6% to \$34.4 million in 2022.

Overview of the Financial Statements

The System's basic financial statements were prepared in conformity with Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans* and include the following: (1) statements of fiduciary net position, (2) statements of changes in fiduciary net position, (3) notes to the financial statements, (4) required supplementary information, and (5) the supporting schedules.

The Statements of Fiduciary Net Position report the System's assets, liabilities, deferred inflows/outflows, and resultant net position restricted for pensions. They disclose the financial position of the System as of June 30, 2022, and 2021, respectively.

The Statements of Changes in Fiduciary Net Position report the results of the System's operations during years 2022 and 2021 disclosing the additions to and deductions from the fiduciary net position. They support the change that has occurred to the prior year's net position on the statement of fiduciary net position.

Notes to the Financial Statements provide additional information that is essential to a full understanding of the financial statements.

- Note A provides a general description of LASERS organization, employer and membership
 participation, net pension liability of employers, actuarial methods and assumptions, eligibility,
 benefits, and the optional retirement plan.
- Note B provides a summary of significant accounting policies and plan position matters including the basis of accounting, securities lending, estimates, methods used to value investments, property and equipment, and accumulated leave.
- Note C provides information regarding member and employer contribution requirements.
- Note D categorizes LASERS investments by fair value measurements, the level of fair value hierarchy, and valuation techniques established by generally accepted accounting principles. It also discloses information regarding certain investments whereby fair value is reported at net asset value per share and provides a description of related asset classes.
- Note E describes LASERS deposits and investment risk disclosures, which include custodial credit risk, concentration of credit risk, credit risk, interest rate risk, and foreign currency risk.
- Note F describes the System's cash and investments, and includes information regarding bank balances, investments including the investment policy and rate of return, domestic equity, international equity, domestic core fixed income, global fixed income, emerging market debt, global multi-sector fixed income, derivatives, and alternative investments.
- Note G provides information regarding the securities lending program.
- Note H provides information on total other postemployment benefits (OPEB).

Required Supplementary Information consists of five schedules and related notes concerning changes in net pension liability, employers' net pension liability, employer contributions, and investment returns. It also includes a schedule of proportionate share of the collective total OPEB liability. The related notes disclose key historical actuarial assumptions and methods used in the schedules.

The *Supporting Schedules* section includes the schedules of administrative expenses, investment expenses, board compensation, and professional/consultant fees.

Financial Analysis

LASERS financial position is measured in several ways. One way is to determine the fiduciary net position (difference between total assets plus deferred outflows and total liabilities plus deferred inflows) available to pay benefits. Over time, increases and decreases in the LASERS fiduciary net position indicate whether its financial health is improving or deteriorating. Other factors, such as financial market conditions and the measurement of its net pension liability, should also be taken into consideration when measuring LASERS overall health.

The following table illustrates a condensed version of LASERS Statements of Fiduciary Net Position for fiscal years ending 2022, 2021, and 2020. LASERS fiduciary net position as of June 30, 2022 and 2021, totaled \$13,238,580,140 and \$14,716,344,767, respectively. All of the fiduciary net position is available to meet LASERS ongoing obligations to members, retirees, and beneficiaries.

Condensed Comparative Statements of Fiduciary Net Position

| | 2022 | 2021 | 2020 |
|--|----------------------|----------------------|----------------------|
| Cash and Cash Equivalents | \$ 169,121,709 | \$ 148,590,579 | \$ 139,023,019 |
| Receivables | 162,762,631 | 188,827,426 | 171,926,994 |
| Investments | 13,009,850,747 | 14,523,879,752 | 11,218,189,209 |
| Securities Lending Cash Collateral | 967,955,826 | 967,315,754 | 1,079,839,165 |
| Capital Assets (at cost) - Net | 5,840,563 | 5,954,546 | 6,217,506 |
| Total Assets | 14,315,531,476 | 15,834,568,057 | 12,615,195,893 |
| Deferred Outflows of Resources | 3,894,299 | 1,964,402 | 1,075,248 |
| Accounts Payable and Other Liabilities | 111,172,534 | 150,559,064 | 112,421,630 |
| Securities Lending Obligations | 968,184,946 | 967,309,307 | 1,079,832,536 |
| Total Liabilities | 1,079,357,480 | 1,117,868,371 | 1,192,254,166 |
| Deferred Inflows of Resources | 1,488,155 | 2,319,321 | 3,306,080 |
| Net Position Restricted for Pensions | \$ 13,238,580,140 | \$ 14,716,344,767 | \$ 11,420,710,895 |

For the fiscal year ended June 30, 2022, fiduciary net position was approximately \$13.2 billion. This reflected a decrease of \$1,477,764,627 from the previous fiscal year-end. This decrease can be attributed to a decrease in investments of \$1,514,029,005 caused by increased market volatility triggered by inflationary economic pressures. In 2022, OPEB deferred outflows increased by 98.2% to \$3,894,299 and deferred inflows decreased by 35.8% to \$1,488,155 primarily due to a decrease in the plans discount rate. In the one-year period from June 30, 2020 to June 30, 2021, LASERS fiduciary net position increased by \$3,295,633,872. The increase in fiduciary net position in 2021 over 2020 can be attributed to market recovery realized from a combination of federal stimulus and vaccine development in response to the COVID-19 pandemic which is discussed in *Note B. Summary of Significant Accounting Policies*.

LASERS maintains its commitment to a broadly diversified portfolio. Carefully underwritten and conservative assumptions for future expected returns have been adopted, and the investment portfolio is structured to optimize the risk-return trade-off. This is done in part by reviewing the Plan's asset allocation. LASERS continues to believe that it is well positioned to meet its long-term goals.

Additions to Fiduciary Net Position

The revenues needed to finance retirement benefits are accumulated primarily through the collection of employer and employee contributions and earnings on investments. Revenue for the fiscal year ended June 30, 2022, totaled \$22,794,609. The revenue consisted of employer and employee contributions totaling \$1,022,935,212, a net investment loss of \$1,015,958,553, and other income of \$15,817,950. In 2022, our investment portfolio completed the fiscal year with a rate of return-on-investment assets of -7.2%. The plan earned an annualized return of 12.2% for the two-year period, 8.2% for the six-year period, and 7.8% for the ten-year period. LASERS experienced a total net investment loss of \$1,015,958,553 in 2022 compared to a total net investment income of \$3,703,593,259, and a total net investment loss of \$480,573,814 in 2021 and 2020, respectively. The investment loss for 2022 is due to a number of factors including inflation reaching a multi-decade high, aggressive monetary policy tightening by the Federal Reserve, and lingering effects of the Russia-Ukraine conflict. The investment income in 2021 is attributable to both global market improvements as well as the asset allocation changes adopted by the Board of Trustees in October 2020.

During 2022, combined employer and employee contribution income increased from 2021 by \$2,766,210. Employer contributions, which includes contributions based on covered payroll and from legislative acts, increased \$2,602,960 or 0.3%, and member contributions increased \$163,250, or 0.1%. The increase in employer contributions was primarily the result of an increase in income from legislative acts.

For the year ended June 30, 2021, total additions increased by 755.2% or \$4,184,242,900 over fiscal year 2020. The increased revenue was due primarily to net investment income increasing \$4.2 billion from 2020. Combined contributions increased 0.1% and other income decreased by 8.8%. Our investment portfolio completed the fiscal year with a rate of return-on-investment assets of 35.6%.

Deductions from Plan Assets

LASERS was created to provide lifetime retirement, survivor, and disability benefits to qualified LASERS members. The cost of such programs includes recurring benefit payments, refund of contributions to employees who left the System, and the cost of administering LASERS.

Deductions for the fiscal year ended June 30, 2022, totaled \$1,500,559,236 an increase of approximately 4.0% over June 30, 2021. For the fiscal year ended June 30, 2021, deductions were \$1,442,684,529, an increase of about 1.9% over June 30, 2020. The increase in deductions for fiscal years ended 2022 and 2021 is primarily a result of an increase in benefits. Benefits paid in 2022, 2021, and 2020 increased because of the increase in the number of retirees and the average benefit resulting from the higher average salary history of the newer retirees.

Administrative expenses increased by \$103,624 or 0.6% for the fiscal year ended June 30, 2022, primarily a result of an increase in non-capitalizable acquisitions. In 2021, administrative expenses decreased by \$142,671 or 0.9% over fiscal year ended 2020. The decrease in 2021 is because of reduced travel due to the COVID-19 pandemic. Details of administrative expense activity can be found in the *Schedules of Administrative Expenses* located under Supporting Schedules.

OPEB expenses increased \$876,451 or 977.6% for the fiscal year ended June 30, 2022, compared to June 30, 2021. This increase was attributed to a change in assumptions and recognition of deferrals. OPEB expenses increased \$46,901 or 109.7% for the fiscal year ended June 30, 2021, compared to June 30, 2020.

Depreciation and amortization expense increased 4.1% for the fiscal year ended June 30, 2022, compared to a 6.2% decrease for 2021 over 2020. The increase in 2022 can primarily be attributed to an increase in depreciable assets for the building partnership. The decrease in 2021 can be attributed to a decrease in depreciable assets due to disposals.

Total additions less total deductions resulted in a net decrease in fiduciary net position of \$1,477,764,627 in 2022, compared to an increase of \$3,295,633,872 in 2021.

Requests for Information

This Financial Report is designed to provide a general overview of the System's finances. For questions concerning any information in this report or for additional information, contact the Louisiana State Employees' Retirement System; Attention: Fiscal Division, P. O. Box 44213, Baton Rouge, LA 70804-4213.

Notes to Financial Statements

A. Plan Description

1. General Organization

The Louisiana State Employees' Retirement System (LASERS or the System) is the administrator of a cost-sharing multi-employer defined benefit pension plan and is a component unit of the State of Louisiana included in the State's Annual Comprehensive Financial Report (ACFR) as a pension trust fund. The System was established by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401).

In accordance with Louisiana Revised Statutes, the System is subject to certain elements of oversight:

- The House and Senate Committees on Retirement review administration, benefits, investments, and funding of the public retirement systems.
- The operating budget of the System is subject to budgetary review and approval by the Joint Legislative Committee on the Budget.
- The Legislative Auditor is responsible for the procurement of audits for the public retirement systems and is authorized to contract with a licensed Certified Public Accountant (CPA) for each audit.
- Actuarial calculations and results are reviewed by the Public Retirement Systems' Actuarial Committee (PRSAC) annually.
- A thirteen-member Board of Trustees, comprised of six active members, three retired members and four ex officio members, governs the System. The Board administers the programs and appoints key management personnel including the Executive Director, Chief of Staff, Chief Administrative Officer, and the Chief Investment Officer.

2. Plan Membership

The System is one of several public retirement systems in Louisiana. Each system has specific membership requirements established by legislation, with LASERS established for state officers, employees, and their beneficiaries. Other public employers report members who retained membership in LASERS upon transfer to other public systems or as provided by specific legislation. A summary of government employers and members participating in LASERS at June 30, 2022 and 2021, are as follows:

| | 20 | 22 | 20 | 21 |
|------------------------|------------------|---------|------------------|---------|

| Regular State Employees | 31,163 | 32,231 |
| Wildlife Agents | 110 | 124 |
| Total Active Members | 37,358 | 38,572 |

At June 30, 2022 and 2021, membership consisted of:

| | 2022 | 2021 |
|------------------------------|---------|---------|
| Active Members | 37,358 | 38,572 |
| Regular Retirees* | 41,678 | 41,449 |
| Disability Retirees* | 1,918 | 2,000 |
| Survivors | 6,151 | 6,086 |
| Vested & Reciprocals | 3,868 | 3,724 |
| Inactive Members Due Refunds | 59,146 | 57,464 |
| DROP Participants | 1,199 | 1,311 |
| Total Membership | 151,318 | 150,606 |

^{*}For actuarial purposes, "Disability Retirees" includes members who have reached normal retirement eligibility requirements and converted to Regular Retirement; and are therefore, counted by LASERS as "Regular Retirees."

3. Net Pension Liability of Employers

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

The components of the net pension liability of the System's employers determined in accordance with GASB 67 as of June 30, 2022 and 2021 were as follows:

| | 2022 | 2021 |
|---------------------------------------|----------------------|----------------------|
| Total Pension Liability | \$ 20,798,321,945 | \$ 20,220,320,534 |
| Plan Fiduciary Net Position | 13,238,580,140 | 14,716,344,767 |
| Employers' Net Pension Liability | \$ 7,559,741,805 | \$ 5,503,975,767 |
| | | |
| Plan Fiduciary Net Position as a | | |
| Percentage of Total Pension Liability | 63.7% | 72.8% |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Actuarially determined amounts regarding the net pension liability are subject to continual revision as actual results are compared to past expectations, and new estimates are made about the future. The last experience study was performed in 2019 and was based on the experience of the System for the period of July 1, 2013 through June 30, 2018. The required Schedules of Employers' Net Pension Liability located in Required Supplementary Information following the *Notes to the Financial Statements* presents multi-year trend information regarding whether the plan fiduciary net positions are increasing or decreasing over time relative to the total pension liability. The Total Pension Liability as of June 30, 2022 and 2021, is based on actuarial valuations for the same periods, updated using generally accepted actuarial procedures.

4. Actuarial Methods and Assumptions

A summary of the actuarial methods and assumptions used as of the June 30, 2022 and 2021, actuarial valuations are as follows:

Valuation Date June 30, 2022 and 2021

Actuarial Cost Method Entry Age Normal

Actuarial Assumptions:

Expected Remaining

Service Lives 2 years

Investment Rate of Return 7.25% and 7.40% per annum for 2022 and 2021, respectively.

Inflation Rate 2.30% per annum for 2022 and 2021.

Mortality Non-disabled members - The RP-2014 Blue Collar (males/

females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement

Scale MP-2018.

Mortality (continued)

Disabled members - Mortality rates based on the RP-2000 Disabled Retiree Mortality Table with no projection for mortality improvement.

Termination, Disability, and Retirement

Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members.

Salary Increases

Salary increases were projected based on a 2014-2018 experience study of the System's members. The salary increase ranges for 2022 and 2021 specific types of members were:

| | Lower | Upper |
|----------------|-------|-------|
| Member Type | Range | Range |
| Regular | 3.0% | 12.8% |
| Judges | 2.6% | 5.1% |
| Corrections | 3.6% | 13.8% |
| Hazardous Duty | 3.6% | 13.8% |
| Wildlife | 3.6% | 13.8% |

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adjusting for expected inflation and an adjustment for the effect of rebalancing/diversification. The expected rate of inflation was 2.3% for 2022 and 2021. The resulting expected long-term nominal rates of return are 8.34% for 2022 and 7.61% for 2021. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2022 and 2021 are summarized in the following table:

| Asset Class | 2022 | 2021 |
|----------------------------|-------|--------|
| Cash | 0.39% | -0.29% |
| Domestic Equity | 4.57% | 4.09% |
| International Equity | 5.76% | 5.12% |
| Domestic Fixed Income | 1.48% | 0.49% |
| International Fixed Income | 5.04% | 3.94% |
| Alternative Investments | 8.30% | 6.93% |
| Total Fund | 5.91% | 5.81% |

The discount rate used to measure the total pension liability was 7.25% and 7.40% for June 30, 2022 and 2021, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC, taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

In accordance with GASB 67, regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the following presents the net pension liability of the participating employers calculated using the discount rate of 7.25% and 7.40% for June 30, 2022 and 2021, respectively, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

| | | Current | |
|-------------------------------------|------------------|------------------|------------------|
| | 1% Decrease | Discount Rate | 1% Increase |
| 2021 Discount Rate | 6.40% | 7.40% | 8.40% |
| 2021 Employer Net Pension Liability | \$ 7,457,471,407 | \$ 5,503,975,767 | \$ 3,841,797,070 |
| 2022 Discount Rate | 6.25% | 7.25% | 8.25% |
| 2022 Employer Net Pension Liability | \$ 9,512,361,423 | \$ 7,559,741,805 | \$ 5,779,236,411 |

5. Eligibility Requirements

All state employees, except those specifically excluded by statute, become members of the System's Defined Benefit Plan (DBP) as a condition of employment, unless they elect to continue as a contributing member in any other retirement system for which they remain eligible for membership. Certain elected officials and officials appointed by the Governor may, at their option, become members of LASERS. Also, qualifying unclassified state employees may have made an irrevocable election to participate in the Optional Retirement Plan (ORP) between July 12, 1999 and December 7, 2007, when the plan closed. All plans are considered one pension plan for financial reporting

purposes. All assets accumulated for the payment of benefits may legally be used to pay benefits to any plan members or beneficiaries.

6. Retirement

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank-and-file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service, at age 55 upon completing 25 years of creditable service, and at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015, may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and may also retire at any age with a reduced benefit after 20 years of creditable service. Hazardous duty members are eligible to retire with 12 years of creditable service at age 55, 25 years of creditable service at any age, or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable

service and may also retire at any age with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate; and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who were members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

7. Deferred Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized actuarial return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30 immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if the member does not cease employment after DROP participation.

The DROP/IBO Reserve consists of the reserves for all members who select the DROP or IBO upon retirement. The balance in the DROP/IBO Reserve as of June 30, 2022 and 2021 was \$1,138,772,981 and \$1,152,219,353, respectively.

8. Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching retirement age, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service or 100% of final average compensation if the injury was the result of an intentional act of violence. If the disability benefit retiree is permanently confined to a wheelchair, or is an amputee incapable of serving as a law enforcement officer, or is permanently and legally blind, there is no reduction to the benefit if the retiree becomes gainfully employed.

9. Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011, who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23, if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are ten years, two years being earned immediately prior to death, and in active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Services Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If the member dies in the line of duty as

a result of an intentional act of violence, survivor benefits may be increased to 100% of the member's final average compensation.

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation, and cease upon remarriage, or children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse or 100% of final average compensation if the injury was the result of an intentional act of violence regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

10. Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

The Experience Account Reserve is used to fund permanent benefit increases for retirees. The benefit increase granted must be funded at 100% of the actuarial cost. The account accumulates 50% of the excess investment gain relative to the actuarial valuation rate of 7.4% after such excess return exceeds \$100,000,000 (indexed to positive changes in the actuarial value of assets beginning June 30, 2015).

If the System is at least 80% funded, the balance of the Experience Account maintains a reserve for two permanent benefit increases. However, if the System is less than 80% funded, the reserve is restricted to one permanent benefit increase, based on the current allowable percentage granted for the permanent benefit increase. Excess investment gains that would have otherwise gone to the Experience Account, if not for the restrictions, will be applied to the System's net pension liability. Beginning June 30, 2016, allocations to the Experience Account will be amortized over ten years. At June 30, 2022 and 2021, the balance of the Experience Account Reserve was \$23,082,605 and \$85,173,827, respectively. The decrease in the Experience Account Reserve is explained as a subsequent event in *Note B. Summary of Significant Accounting Policies*.

11. Optional Retirement Plan

In 1999, an Optional Retirement Plan (ORP) was established as a defined contribution component of LASERS for certain unclassified employees who otherwise would have been eligible to become members of the defined benefit plan. The ORP provides portability of assets and full and immediate vesting of all contributions submitted on behalf of members. The ORP is administered by a third-party provider with oversight from LASERS Board of Trustees. Monthly employer and employee contributions are invested as directed by the member to provide the member with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the member's working lifetime. ORP balances are held by the provider in each participant's name. These balances are included in LASERS total investments on the Statements of Fiduciary Net Position. The ORP was closed to new members on December 7, 2007. However, members in the ORP as of December 31, 2007, were granted the option by Act 718 of

the 2012 Louisiana Regular Legislative Session to regain membership in the defined benefit plan. At June 30, 2022, and 2021, membership consisted of:

| | 2022 | 2021 |
|-------------------------------|-----------|-------------------|
| Number of Members | 41 | 44 |
| Employee Contributions | \$65,702 | \$ <i>77,</i> 535 |
| Employer Contributions | \$342,737 | \$ 410,465 |

The ORP Reserve consists of reserves for all members who elected to participate in the ORP and is credited with contributions made by the employee and the normal employer matching contributions for services rendered. When a member terminates his service, or upon his death before qualifying for a benefit, the refund of his contributions is made from this reserve. Also, when a member retires, his benefits are paid from this reserve. The balance of the ORP Reserve as of June 30, 2022 and 2021 was \$4,878,511 and \$6,065,893, respectively.

B. Summary of Significant Accounting Policies

1. Basis of Accounting

LASERS financial statements are prepared in conformity with accounting principles generally accepted in the United States of America using the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred. Investment purchases and sales are recorded as of the trade date. State General Fund appropriations are recognized in the period when they are appropriated. Employer and member contributions are recognized when due, pursuant to formal commitments, as well as statutory or contractual requirements. Administrative expenses are funded through contributions to the plan from members, and the State of Louisiana, and are subject to budgetary control of the Board of Trustees and the Joint Legislative Committee on the Budget. Benefits and refunds are recognized when due and payable in accordance with the terms of the System.

2. Securities Lending

The System records collateral received under its securities lending agreement where the System has the ability to spend, pledge, or sell the collateral without borrower default. Liabilities resulting from these transactions are also reported. The security lending cash collateral investments are reported at fair value. Security lending income and expenses are reported as investment income and expenses in the accompanying financial statements. The Statements of Fiduciary Net Position do not include detailed holdings of securities lending collateral by investment classification.

3. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from fiduciary net position during the reporting period. Actuarial valuations are used to determine the net pension liability and the total OPEB liability. Actual results could differ from those estimates. The

retirement system utilizes various investment instruments, which by nature, are exposed to a variety of risk levels and risk types, such as interest rate, credit, and overall market volatility. Market volatility includes global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the Statements of Fiduciary Net Position.

4. Method Used to Value Investments

As required by GASB 72, investments are reported at fair value. Fair value is described as an exit price. This statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. This statement establishes a hierarchy of inputs to valuation techniques used to measure fair value. That hierarchy has three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs, other than quoted prices, are included within Level 1 and are observable for the asset or liability, whether directly or indirectly. Finally, Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage-backed security. This statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. These disclosures are organized by type of asset or liability. GASB 72 also requires additional disclosures regarding investments in certain entities that report net asset value as a practical expedient for fair value per share (or its equivalent). These disclosures are located in *Note D. Fair Value Disclosures*.

Short-term investments are reported at fair value when published prices are available, or at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at the current exchange rate. All derivative financial instruments are reported at fair value in the Statements of Fiduciary Net Position with valuation changes recognized in income. Gains and losses are reported in the Statements of Changes in Fiduciary Net Position as net appreciation (depreciation) in fair value of investments during the period the instruments are held, and when the instruments are sold or expire. The nature and use of derivative instruments is discussed in Note F. Cash and Investments (10). The fair value of investments that are organized as limited partnerships and have no readily ascertainable fair value (such as private markets and real estate) has been recorded based on the investment's capital account balance which is reported at fair value, at the closest available reporting period, adjusted for subsequent contributions, distributions, and management fees. Because of the inherent uncertainties in estimating fair values, it is at least reasonably possible that the estimates will change in the near term. Investments that do not have an established market are reported at estimated fair value. Unrealized gains and losses are included as investment earnings in the Statements of Changes in Fiduciary Net Position. Synthetic Guaranteed Investment Contracts are carried at contract value as required by GASB 53.

5. Accumulated Leave

The employees of the System accumulate unlimited amounts of annual and sick leave at varying rates as established by state regulations. Upon resignation or retirement, unused annual leave of up to 300 hours is paid to an employee at the employee's current rate of pay. Upon retirement, unused annual

FINANCIAL SECTION

leave in excess of 300 hours and sick leave are credited at the current pay rate as earned service in computing retirement benefits. The liability for accrued annual leave of up to 300 hours is included in trade payables and other accrued liabilities in the Statements of Fiduciary Net Position.

6. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the State of Louisiana Postretirement Benefits Plan (Plan), and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. The Plan is funded on a pay-as-you-go basis and as such, there are no investments held by the Plan.

7. Property and Equipment

Property and equipment and computer software are reported at historical cost. Depreciation is computed using the straight-line method based upon useful lives of 40 years for building, three to 15 years for equipment and furniture, and seven years for computer software. The capitalization thresholds of property and equipment are:

- Computer Software Developed or Modified Internally (reported as Intangible Assets): \$1,000,000
- Movable Property and Equipment: \$5,000

LASERS is a 50% co-owner of the Louisiana Retirement Systems Building and related land with the Teachers' Retirement System of Louisiana. LASERS interest in the building, land, furniture, equipment, vehicles, and intangibles is reflected in the following schedules.

Changes in Property and Equipment

For Period Ending June 30, 2022

| | | | | | De | letions/ | | |
|-------------------------------------|---------------|--------------|-----------|-----------|-----------|----------|----|--------------|
| | June 30, 2021 | | Additions | | Transfers | | Ju | ne 30, 2022 |
| Asset Class (at Cost) | | | | | | | | |
| Land | \$ | 858,390 | \$ | - | \$ | - | \$ | 858,390 |

8. Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation. These reclassifications had no effect on Net Position Restricted for Pensions, or the Net Change in Fiduciary Net Position.

9. New Accounting Pronouncements

Pronouncements effective for the 2022 financial statements:

In June 2017, the GASB issued Statement No. 87, *Leases* effective for fiscal years beginning after December 15, 2019. In May 2020, the GASB issued Statement No. 95 which changed the effective date for Statement No. 87 to fiscal years beginning after June 15, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The implementation of this standard did not require any changes to LASERS financial reporting requirements.

Pronouncements issued; but not yet effective:

In May 2020, the GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements, effective for fiscal years beginning after June 15, 2022. The objective of this Statement is to better meet the informational needs of financial statement users by establishing uniform accounting and financial reporting requirements and improving the comparability of financial statements among governments that have entered into subscription based information technology arrangements (SBITAs). The System is in the process of evaluating the impact of this pronouncement on its financial statements.

10. Subsequent Event

The 2022 Regular Session of the Louisiana Legislature passed Act 656 which provided a one-time supplemental payment equal to the lesser of the retiree's or beneficiary's monthly benefit, or \$2,000 with an estimated total cost to the System of \$68,096,068 to be paid on August 15, 2022. Eligibility was based on the current statutory COLA eligibility requirements. The increase in accrued liability includes the present value of the payment and is offset by funds disbursed from the Experience Account.

C. Contributions

1. Member Contributions

Member contribution rates for the System are established by La. R.S. 11:62. Member contributions are deducted from a member's salary and remitted to the System by participating employers. If a member leaves covered employment or dies before any benefits become payable on their behalf, the accumulated contributions may be refunded to the member or their designated beneficiary. Similarly, accumulated contributions in excess of any benefits paid to members or their survivors are refunded to the member's beneficiaries or their estates upon cessation of any survivor's benefits.

2. Employer Contributions

The employer contribution rate is established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's Actuary. Each plan pays a separate actuarially determined employer contribution rate. However, all assets of LASERS are used for the payment of benefits for all classes of members, regardless of their plan membership.

The member and employer rates in effect during the years ended June 30, 2022 and 2021, for the various plans are as follows:

| | Plan | 2022 | 2021 | Employee |
|---|--------|------------------|------------------|------------------|
| Plan | Status | Employer Rate | Employer Rate | Employee Rate |
| Appellate Law Clerks | Closed | 39.50% | 40.10% | 7.50% |
| Appellate Law Clerks hired on or after 7/1/06 | Closed | 39.50% | 40.10% | 8.00% |
| Alcohol Tobacco Control | Closed | 42.60% | 38.10% | 9.00% |

| Wildlife Agents | Closed | 51.20% | 50.50% | 9.50% |
| Aggregate Rate | | 40.20% | 40.60% | |

D. Fair Value Disclosures

LASERS categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The plan has the following recurring fair value measurements as of June 30, 2022 and 2021, respectively:

| | | | 2022 Fair Value Measurements | | | | | | |
|---------------------------------------|----|---------------|------------------------------|-----------------|-----|-----------------|-----|------------------|--|
| | - | | Q | uoted Prices in | Si | gnificant Other | | Significant | |

Securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Derivative instruments classified in Level 2 of the fair value hierarchy are valued using a market approach that considers benchmark interest rates and foreign exchange rates. Investments classified in Level 3 of the fair value hierarchy are valued using unobservable inputs and are not directly corroborated with market data.

The unfunded commitments and redemption terms for investments measured at the net asset value (NAV) per share (or its equivalent) as of June 30, 2022, are presented in the following table.

| Total Investments at NAV | \$ | 5,349,678,121 | | | |
| | | | | | |

1. Emerging Markets

Emerging Markets includes investments in three equity and one debt emerging market for the years ending June 30, 2022 and 2021. These investments aim to benefit from the higher economic growth, increased independence, and positive demographic trends in emerging countries. The fair value of

the investments in these funds has been determined using the NAV per share (or equivalent) of the investments. Units are valued monthly to quarterly and redemption of units varies from seven to 90-day advanced notice. Any amount redeemed will be paid within five to 30 business days following the date as of which the withdrawal is to be made.

2. Global Multi-Sector

Global Multi-Sector commingled funds had four funds for fiscal years ending June 30, 2022 and 2021. They are designed to be flexible and may move tactically in response to market conditions. It allows investments in securities across the fixed income universe which includes securities such as sovereign debt, corporate credit, structured products, currency, distressed debt, and leveraged loans. Redemption payments range from monthly to quarterly with 30 to 60-day notices. Two of the three funds have an initial one-year lock-up. One fund is illiquid with a term of five years with options for two one-year renewals. The fair value of the investments has been determined using NAV per share (or equivalent) of the investments.

3. Absolute Return

Absolute Return had five funds for fiscal years ending June 30, 2022 and 2021. Absolute Return Funds utilize a variety of strategies, asset classes, and securities to generate returns, depending on current market conditions. Funds tend to trade in a variety of strategies and exhibit low correlation to one another and to other absolute fund strategies. They are inherently diversified with multiple sources of return. Managers have the ability to incubate and quickly execute new strategies. The fair value of the investments has been determined using the NAV per share (or equivalent) of the investments.

4. Private Markets

Private Markets is an asset class consisting of both equity and debt ownership in operating companies not publicly traded on a stock exchange. This type increased net funding by one investment to 88 private market funds in fiscal year ending June 30, 2022. Private market funds employ a combination of strategies to earn superior risk-adjusted returns. The fair values of the investments in this type have been determined using the NAV per share (or equivalent) of the Plan's ownership interest in partners' capital. These investments are illiquid. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated approximately seven to 15 years from the commencement of the fund.

E. Deposits and Investment Risk Disclosures

The information presented on the following pages includes disclosures of custodial, interest rate, credit, and foreign currency risks in accordance with GASB 40, 53, and 67 and is designed to inform financial statement users about investment risks that could affect the System's ability to meet its obligations. The tables presented classify investments by risk type, while the financial statements present investments by asset class; thus, the totals shown on the tables may not be comparable to the amounts shown for the individual asset classes on the financial statements.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of bank failure, the System's deposits may not be returned. The System does not have a formal deposit policy for custodial credit risk. All U.S. bank balances at year-end were insured or collateralized by the pledge of government securities held by the agents in LASERS name. LASERS had time deposits and certificates of deposits in the securities lending cash collateral pool that were exposed to custodial credit risk of \$227.5 million and \$277.8 million as of June 30, 2022 and 2021, respectively. LASERS had uninsured cash deposits in non-U.S. banks of \$37.4 million and \$34.6 million for the periods ended June 30, 2022 and 2021, respectively.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the pension trust fund will not be able to recover the value of its investments, or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either: a) the counterparty or b) the counterparty's trust department or agent but not in the government's name. LASERS had no custodial credit risk for investments for the years ending June 30, 2022 and 2021.

2. Concentration of Credit Risk

Concentration of credit risk is the "risk of loss attributed to the magnitude of investments in a single issuer." The risk occurs "when investments are concentrated in any one issuer that represents 5% or more of plan net assets." Investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. The System has no investments of any single organization (other than those issued or guaranteed by the U.S. Government) that represent 5% or more of the System's net plan assets, nor does the System hold more than 5% of any corporation's stock.

3. Credit Risk

Credit risk is the risk that a borrower will be unable to meet its obligation. According to LASERS investment policy, the overall average quality of each core fixed income portfolio shall be rated A- or higher by Standard and Poor's. Non-rated issues or issues below investment grade (below BBB-) may be purchased up to a maximum of 15% of each core fixed income portfolio. These quality restrictions will not apply to a manager that is hired by LASERS to manage dedicated high-yield fixed income portfolios. The average duration shall not differ from the passive benchmark's duration by more than two years.

In preparing this report, credit risk associated with all fixed income holdings including collateral for repurchase agreements and securities lending collateral has been included. The System's exposure to credit risk as of June 30, 2022 and 2021, is as follows:

| | Fair Value | Percent Fair Value | | | Percent |
|---------------------------|---------------------|--------------------|----|---------------|---------|
| Rating | 2022 | 2022 | | 2021 | 2021 |

4. Interest Rate Risk

Interest rate risk is the risk from changes in interest rates adversely affecting the fair value of an investment. LASERS has no formal interest rate risk policy. LASERS, as expressed in its investment policy, expects its fixed income managers to approximate the portfolio's duration (a measure of a debt investment's exposure to fair value changes arising from interest rates) to within two years of its respective benchmark. Investments with fair values that are highly sensitive to interest rate changes may contain terms that increase the sensitivity of their fair values.

FINANCIAL SECTION

As of June 30, 2022 and 2021, the System had the following domestic and foreign debt investments and maturities:

| | | Investment Maturities (in Years) | | | | | | |
|--------------------------------------|-----------------|----------------------------------|----------------|----------------|----------------|--|--|--|
| | Fair Value | Less | | | Greater | | | |
| Type | 2022 | Than 1 | 1 - 5 | 5 - 10 | Than 10 | | | |
| U.S. Government Obligations | \$ 60,184,406 | \$ 14,347,617 | \$ 8,711,474 | \$ 17,355,507 | \$ 19,769,808 | | | |
| U.S. Agency Obligations | 96,920,238 | 15,400 | 17,828 | 5,370,244 | 91,516,766 | | | |
| Mortgages | 22,705,441 | 1,954,360 | - | - | 20,751,081 | | | |

5. Foreign Currency Risk

Foreign currency risk is the potential risk for loss due to changes in exchange rates. Cash held by the manager may be in U.S. dollar or foreign currencies of the manager's choice. Managers may purchase or sell currency on a spot basis to accommodate securities settlements. Managers may enter into forward exchange contracts on currency provided that use of such contracts is designed to dampen portfolio volatility or to facilitate the settlement of securities transactions. Currency contracts may be utilized to either hedge the portfolio's currency risk exposure or in the settlement of securities transactions.

Foreign investments denominated in U.S. currency such as American Depository Receipts (ADRs) and Yankee bonds do not carry foreign currency risk; therefore, they are not included in the tables below. LASERS portfolio contained several commingled funds subject to foreign currency risk with aggregate fair values of \$2.0 billion and \$2.1 billion for the years ended June 30, 2022 and 2021, respectively. LASERS Investment Guidelines, some of which are noted in *Note F. Cash and Investments*, are designed to mitigate risk.

The fair value of LASERS securities including derivative instruments held in a foreign currency at June 30, 2022 and 2021, is as follows:

| | | | | Private | Currency | Fair Value |
|------------------------|---------------------|---------------------|----------------|---------------|----------------|------------------|
| Currency | Global Bonds | Global Stock | Cash/Other | Markets | Contracts | 2022 |
| Argentinian Peso | \$ - | \$ - | \$ 11 | \$ - | \$ - | \$ 11 |

F. Cash and Investments

1. Cash and Cash Equivalents

Cash and cash equivalents include cash deposited in banks. Cash in U.S. banks is insured by the Federal Deposit Insurance Corporation up to \$250,000, and cash equivalents are collateralized by the pledge of government securities held by the agents in LASERS name.

2. Short-Term Investments

Short–term reserves may be held in U.S. dollar or global denominated investment vehicles available through the System's custodian. These funds may be invested in direct U.S. Government obligations such as U.S. Treasury Bills or repurchase agreements, which are fully collateralized by issues of the U.S. Treasury or any agency of the United States Government. Excess cash may also be invested in the negotiable certificates of deposit, global time deposits, global currency, or other short-term investment vehicles designated by the Board.

3. Investments

Louisiana state law (La. R.S. 11:261-269) provides for the fiduciary and investment responsibilities of LASERS. La. R.S. 11:263 states that the prudent man rule shall apply to all investments of LASERS. This law specifically requires management of LASERS to exercise the judgment and care under the circumstances prevailing that a prudent institutional investor would use in the conduct of an enterprise of a like character with like aims.

A) Investment Policy

The System's policy in regard to the allocation of invested assets is established and may be amended by the LASERS Board. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

The following were LASERS Board adopted asset allocation policies in effect on June 30, 2022 and 2021:

Target Asset Allocation

| Asset Class | 2022 | 2021 |
|----------------------------|------|------|
| Cash | 0% | 1% |
| Domestic Equity | 31% | 31% |
| International Equity | 23% | 23% |
| Domestic Fixed Income | 3% | 3% |
| International Fixed Income | 17% | 18% |
| Alternative Investments | 26% | 24% |
| Totals | 100% | 100% |

B) Rate of Return

For the years ended June 30, 2022 and 2021, the annual money-weighted rates of return on pension plan investments, net of pension plan investment expense, were -6.9% and 33.4%, respectively. The money-weighted return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested.

4. Domestic Equity

Domestic equity purchases are limited to publicly traded common stocks. Exceptions shall be approved by the LASERS Board in advance. No single holding shall account for more than 6% of the allowable equity portion of the portfolio at fair value, or 150% of a stock's weighting in the style benchmark against which the manager is measured; whichever is larger.

LASERS domestic equity portfolios are expected to be fully invested. No single holding in LASERS portfolio shall account for more than 5% of the outstanding common stock of any one corporation. No more than 10% of a manager's domestic equity portfolio may consist of cash or cash equivalents. Additionally, no single holding across all actively managed portfolios of an investment management firm shall account for more than 15% of the outstanding common stock of any one corporation.

The purchase of stocks or convertibles in foreign companies, which are publicly traded securities, may be held by each domestic stock manager in proportions up to 10% of the portfolio at fair value. Convertible bonds, convertible preferred stocks, warrants and rights may be purchased as equity substitutes as long as they meet the equity guidelines listed above.

5. International Equity

Short-term reserves may be held in U.S. dollar-denominated, local currency securities, or investment vehicles available through the System's custodian. Managers may purchase or sell currency on a spot basis to accommodate security settlements. Managers may enter into forward exchange contracts on currency provided that use of such contracts is designed to dampen portfolio volatility or to facilitate the settlement of security transactions.

LASERS international equity portfolios are expected to be fully invested. No more than 10% of a manager's international equity portfolio may consist of cash or cash equivalents. Equity securities should be issued by non-U.S. issuers; although, the manager has latitude to hold U.S. securities provided that such investment is consistent with attainment of the portfolio's investment objectives and does not exceed 10% of the portfolio's fair value. American Depository Receipts (ADRs) do not count toward this 10% limitation.

The number of issues held and their geographic or industry distribution shall be left to the investment manager, provided that equity holdings in any one company (including common stock and convertible securities) do not exceed 6% of the fair value of the manager's portion of LASERS portfolio. Additionally, bonds of the companies in question would be included in LASERS exposure calculation if held in the manager's portfolio.

Managers with established international equity mandates may invest up to 10% of their portfolio(s) in the emerging markets, as defined by the MSCI EM Index. Managers with an emerging markets equity mandate are expected to invest in the emerging (non-established) markets, subject to the guidelines listed above.

6. Domestic Core Fixed Income

Domestic core fixed income investments may include U.S. Government and Federal Agency obligations, corporate bonds, debentures, commercial paper, certificates of deposit, Yankee bonds, mortgage-backed securities, and senior secured debt and other instruments deemed prudent by the investment managers. No more than 6% of the fair value of LASERS domestic core fixed income assets may be invested in the debt securities of any one issuer. No limitations on issues and issuers shall apply to obligations of U.S. Government and Federal Agencies.

The overall average quality of each fixed income portfolio shall be rated A- or higher. Issues not rated may be purchased provided that in the judgment of the manager, they are of a quality sufficient to maintain the average overall portfolio quality of A- or higher. Non-rated issues or issues below investment grade (below BBB-) may be purchased up to a maximum of 15% of the portfolio.

The diversification of securities by maturity, quality, sector, coupon, and geography is the responsibility of the manager. Active bond management is encouraged as deemed appropriate by the investment managers. The average duration (interest rate sensitivity) of an actively managed portfolio shall not differ from the passive benchmark's duration by more than two years.

Investments in mortgage-backed securities shall have the characteristics of fixed income securities and be responsive to changes in domestic interest rate changes, as well as other factors that affect the credit markets and mortgage investments. The investment managers are responsible for making an independent analysis of the credit worthiness of securities and their suitability as investments for the Plan, and shall adhere to the specific investment, security, diversification limits, and administrative guidelines established in the investment management agreement(s).

High-yield fixed income managers may invest up to 20% of their portfolios in non-U.S. fixed income securities. They shall perform careful credit analysis to mitigate losses from defaults. Investments should be diversified across sector, industry, sub-industry, and market to mitigate losses. No more than 6% of fair value of the System's high yield assets may be invested in the debt securities of any one issuer.

7. Global Fixed Income

The global bond portfolio may hold no more than 30% of its assets, at fair value, in the debt securities of any single foreign government or non-U.S. government entity. No single non-government debt security shall constitute more than 6% of the global bond portfolio at fair value. Securities issued by AAA rated supranational organizations (such as the World Bank) shall be considered to be government equivalents.

Short-term reserves may be held in U.S. dollar-denominated or local currency securities or investment vehicles available through the LASERS custodian.

Managers may enter into forward exchange contracts on currency provided that use of such contracts is designed to dampen portfolio volatility rather than leverage portfolio risk exposure. Currency contracts may be utilized to either hedge the portfolio's currency risk exposure or in the settlement of securities transactions. Managers may purchase or sell currency on a spot basis to accommodate securities settlements. Decisions as to the number of issues held and their geographic distribution shall be the responsibility of the investment manager.

The overall average quality of each global fixed income portfolio shall be A- or higher. Non-rated issues may be purchased, provided that in the judgment of the manager, they are of a quality sufficient to maintain the average overall portfolio quality of A- or higher. Issues below investment grade (below BBB-) and/or mortgage backed securities may be purchased up to a maximum of 15% of the portfolio. The average duration (interest rate sensitivity) of a global fixed income portfolio shall not differ from the passive benchmark by more than two years.

8. Emerging Market Debt

The emerging markets debt portfolio may hold no more than 1.75 times the passive benchmark weight, at fair value, in the debt securities of any single sovereign entity. The portfolio may hold up to 15% in securities not issued by benchmark countries. The portfolio may hold up to a combined allocation of 20% in non-benchmark inflation-linked bonds and corporate debt securities. Investments should be diversified across sovereign issuers and markets to mitigate losses from defaults.

Managers may enter into forward exchange contracts on currency provided that use of such contracts is designed to dampen portfolio volatility rather than leverage portfolio risk exposure. Currency contracts may be utilized to either hedge the portfolio's currency risk exposure or in the settlement of securities transactions. Managers may purchase or sell currency on a spot basis to accommodate securities settlements. Decisions as to the number of issues held and their geographic distribution shall be the responsibility of the investment manager.

The overall average quality of each portfolio shall be BBB- or higher. Non-rated issues may be purchased provided that in the judgment of the manager, they are of a quality sufficient to maintain the average overall portfolio quality of BBB- or higher. The modified duration (interest rate sensitivity) of an emerging markets debt (local currency) portfolio shall not differ from the passive benchmark by more than three years.

9. Global Multi-Sector Fixed Income

The global multi-sector portfolio may hold no more than 6% of its assets, in fair value in the securities of any one issuer, excluding securities of the U.S. Government and its agencies. Managers may invest up to 10% of the portfolio fair value in equity securities. These limits may be exceeded with consent from LASERS staff and Consultant.

10. Derivatives

The System invested in collateralized mortgage obligations (forms of mortgage-backed securities), foreign exchange currency contracts, futures, options, warrants, rights, swaps, and a Synthetic Guaranteed Investment Contract (SGIC). The System reviews fair value of all securities on a monthly basis. Derivative securities may be held in part to maximize yields and in part to hedge against a rise in interest rates. The fair value of rights and warrants are determined based upon quoted market prices. For the years ending June 30, 2022, and June 30, 2021, the derivative instruments held by the System were considered investments and not hedges for accounting purposes. The term hedging, as it is used elsewhere in the notes to these financial statements, denotes an economic activity and not an accounting method. Investments in limited partnerships and commingled funds may include derivatives. Interest rate risk, credit rate risk, and foreign currency risk associated with derivatives are included on their respective tables in *Note E. Deposits and Investment Risk Disclosures*.

- a. Collateralized mortgage obligations (CMOs) are bonds that are collateralized by whole loan mortgages, mortgage pass-through securities, or stripped mortgage-backed securities. Income is derived from payments and prepayments of principal and interest generated from collateral mortgages. Cash flows are distributed to different investment classes or tranches in accordance with that CMOs established payment order. Some CMO tranches have more stable cash flows relative to changes in interest rates than others that can be significantly sensitive to interest rate fluctuations. In a declining interest rate environment, some CMOs may be subject to a reduction in interest payments as a result of prepayments of mortgages which make up the collateral pool. Reductions in interest payments cause a decline in cash flows and, thus, a decline in fair value of the CMO security. Rising interest rates may cause an increase in interest payments, thus an increase in the value of the security.
- b. Synthetic Guaranteed Investment Contract (SGIC) is an investment for tax-qualified, defined contribution pension plans consisting of two parts: an asset owned directly by the plan trust and a wrap contract providing book value protection for participant withdrawals prior to maturity. LASERS maintains a fully benefit-responsive synthetic guaranteed investment contract option for members of the Optional Retirement Plan and the Self-Directed Plan. The investment objective of the SGIC is to protect members from loss of their original investment and to provide a competitive interest rate. SGICs are carried at contract value. The contract value of the SGIC contract is cost plus accrued interest. The contract value of the SGIC contract was \$537.5 and \$533.6 million for the fiscal years ended June 30, 2022 and 2021, respectively. The fair value of the underlying investments was \$505.6 and \$551.83 million for the fiscal years ended June 30, 2022 and 2021, respectively. The counterparty rating for the wrap contract was A+.
- c. Futures contracts are standardized, exchange-traded contracts to purchase or sell a specific financial instrument at a predetermined price. Gains and losses on futures contracts are settled daily based on a notional (underlying) principal value and do not involve an actual transfer of the specific instrument. The exchange assumes the risk that the counterparty will not pay and generally requires margin payments to minimize such risk. Futures are used primarily as a tool to increase or decrease market exposure to various asset classes.
- d. Currency forwards are a contractual agreement between two parties to pay or receive specific amounts of foreign currency at a future date in exchange for another currency at an agreed upon exchange rate. Forwards are usually transacted in the over-the-counter market. These transactions are entered into in order to hedge risks from exposure to foreign currency rate fluctuation. They are entered into with the foreign exchange department of a bank located in a major money market. Recognition of realized gain or loss depends on whether the currency exchange rate has moved favorably or unfavorably to the contract holder upon termination of the contract. Prior to termination of the contract, the System records the unrealized translation gain or loss. Forward commitments are not standardized and carry counterparty risk. Counterparty risk ratings from forwards for the year ended June 30, 2022, ranged from A-2 to A-1. Counterparty risk ratings from forwards for the year ended June 30, 2021, ranged from A-2 to A-1+.

- e. **Option contracts** provide the option purchaser with the right, but not the obligation, to buy or sell the underlying security at a set price during a period or at a specified date. The option writer is obligated to buy or sell the underlying security if the option purchaser chooses to exercise the option.
- f. **Short sales** are the sale of a security or commodity futures contract that is not owned by the seller. It is a technique used to take advantage of an anticipated decline in the price or to protect a profit in a long position.
- g. **Swaps** are derivative instruments in which two parties agree to exchange one stream of cash flows against another stream or a guarantee. These streams are called the legs of the swap and usually at least one leg has a rate that is variable. The variable leg can depend on a reference rate, the total return of an asset, or an economic statistic. Cash flows are calculated based on the notional amount, which are usually not exchanged between counterparties. Counterparty risk ratings for the years ended June 30, 2022 and 2021 ranged from A-3 to A-1+.

The following tables represent the fair value of all open currency, futures, swaps, and options contracts at June 30, 2022, and 2021:

Change in Fair Value 2022

Fair Value at June 30, 2022

| Derivative Type* | G | Gain/(Loss) Classification | | Amount | Notional | | |
|------------------------------------|----|------------------------------------|----------------------------|--------------|----------|--------------|--|
| Foreign Exchange Contracts | \$ | 501,967 | Short-term Investments | \$ 1,939,704 | \$ | 63,336,116 | |

^{*}Derivatives' changes in fair value are recorded as Net Appreciation (Depreciation) in Fair Value of Investments on the *Statements of Changes in Fiduciary Net Position*.

11. Alternative Investments

Investments in alternatives include, but are not limited to, private markets, absolute return (hedge funds), and real assets. Investment strategies may include buyouts or corporate restructuring, venture capital, secondary investments, distressed securities, mezzanine instruments, energy and natural resources, and any other special situation.

LASERS endeavors to systematically commit additional funds to this asset class over time as it becomes under-represented relative to the LASERS target asset allocation. LASERS attempts to commit up to 200% of its target weighting to private markets investments to help ensure that the funded portion of the investments approximates the target allocation.

The Board of LASERS recognizes that alternative assets are potentially more risky than other investments of the System. As such, extra care is taken in evaluating and fully understanding all aspects on an alternative investment opportunity.

No more than 25% of the alternative asset investment allocation may be invested with a single manager, general partner, or single fund, with the exception of a fund-of-funds. Preference will be given to those funds where the general partner is contributing at least 1% of the total fund. All investments must have a mechanism for exit.

G. Securities Lending Program

State statutes and the Board's policies permit the System to make short-term collateralized loans of its securities to broker-dealers and other entities in order to earn incremental income. LASERS has contracted with its custodian, BNY Mellon, to lend domestic and international equity and debt securities. Collateral in the form of cash or other securities is required for 102% of the fair value of domestic or sovereign debt, and 105% of the fair value of international securities. Since the majority of the loans are terminable at will, their duration does not generally match the duration of the investments made with the cash collateral.

LASERS is not permitted to pledge or sell collateral securities unless a borrower defaults. The System did not impose any restrictions during the fiscal year on the amount of the loans that BNY Mellon made on its behalf, and BNY Mellon indemnified the System by agreeing to purchase replacement securities, or return cash collateral in the event a borrower failed to return a loaned security or pay distributions thereon. There were no such failures by any borrower to return loaned securities or pay distributions thereon during the fiscal year.

On June 30, 2022 and 2021, the System had no credit risk exposure to borrowers because the amounts the System owed the borrowers exceeded the amount the borrowers owed the System. The fair value of securities on loan totaled \$1,149,909,602 and \$1,303,378,867 for the years ended June 30, 2022, and 2021, respectively. The fair value of non-cash collateral on loan totaled \$228,662,516 and \$481,858,353 as of June 30, 2022 and 2021, respectively.

H. Total Other Postemployment Benefits (OPEB)

Substantially all employees become eligible for postemployment health care and life insurance benefits if they reach normal retirement age while working for the System. These benefits for retirees and similar benefits for active employees are provided through the Louisiana Office of Group Benefits (OGB).

1. Plan Description

Employees may participate in the State of Louisiana's Other Postretirement Benefit Plan (OPEB Plan), a multiple-employer defined benefit OPEB Plan that provides medical and life insurance to eligible active employees, retirees, and their beneficiaries. The State administers the plan through OGB. La. R.S. 42:801-883 assigns the authority to establish and amend benefit provisions of the plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board (GASB) Statement No. 75 to pay related benefits.

2. Benefits Provided

The OPEB Plan provides benefits such as: death benefits, life insurance, disability, and long-term care that are paid in the period after employment and that are provided separately from a pension plan; as well as healthcare benefits paid in the period after employment for retirees, disabled retirees, and their eligible beneficiaries through premium subsidies.

OGB offers retirees under age 65 a choice of three self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and Part B coverage have access to these plans and an additional two fully insured Medicare Advantage HMO plans; one fully insured plan, and one zero-premium HMO plan.

Employer contributions are based on plan premiums and the employer contribution percentage. This percentage is based on the date of participation in an OGB plan (before or after January 1, 2002) and employee years of service at retirement. Employees who began participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65 who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer is based on the following schedule:

| OGB | Employer | Retiree |
|----------------|--------------|--------------|
| Participation | Contribution | Contribution |
| Under 10 years | 19% | 81% |
| 10-14 years | 38% | 62% |
| 15-19 years | 56% | 44% |
| 20+ years | 75% | 25% |

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance are available for the individual retiree and spouses of retirees, subject to maximum values. The retiree pays 50% of the premium for personal coverage and 100% of the premium for spousal coverage. Premiums vary by age. The employer pays the remaining amount.

3. Funding Policy

The OPEB Plan is currently funded on a pay-as-you-go basis through a combination of retiree and System contributions. OPEB contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

4. Total OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

The System reported its proportionate share of the net OPEB liability as \$21,939,790 and \$18,605,250 at June 30, 2022 and 2021, respectively. The net OPEB liability was measured as of June 30 of the prior year, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1 of the prior year. Contributions made after the measurement date, but before the end of the reporting period, will be recognized as a reduction of the net OPEB liability in the subsequent fiscal period rather than in the current fiscal period. The System's proportion was actuarially determined and was based on its proportionate share of the State of Louisiana's total OPEB liability. The System's proportion was 0.2396% and 0.2246% for measurement at June 30, 2021 and 2020, respectively.

LASERS recognized OPEB expense of \$966,102 and \$89,651 during the year ended June 30, 2022 and 2021, respectively. At June 30, 2022 and 2021, LASERS reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | 20 | 22 | 2021 | | |
|---|--------------|--------------|--------------|--------------|--|
| | Deferred | Deferred | Deferred | Deferred | |
| | Outflows of | Inflows of | Outflows of | Inflows of | |
| | Resources | Resources | Resources | Resources | |
| Differences between expected and actual | | _ | | | |
| experience | \$ 440,660 | \$ 12,736 | \$ 427,894 | \$ 35,810 | |
| Changes of assumptions | 1,611,921 | 980,796 | 486,429 | 1,780,383 | |
| Differences between actual and | | | | | |
| proportionate share of OPEB Payments | 1,397,120 | 494,623 | 619,904 | 503,128 | |
| Employer Contributions subsequent to | | | | | |
| measurement date | 444,598 | | 430,175 | | |
| Total | \$ 3,894,299 | \$ 1,488,155 | \$ 1,964,402 | \$ 2,319,321 | |
| | | | | | |

Deferred outflows of resources related to OPEB resulting from OPEB payments subsequent to the measurement date of \$444,598 will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022, compared to \$430,175 in 2021. The increase in deferred outflows between last year and this year is driven mainly by the change in discount rate from 2.66% in 2020 to 2.18% in 2021, and an increase in the proportion allocated to LASERS. Other amounts reported as deferred

outflows and inflows of resources related to OPEB will be recognized as a credit or debit to OPEB expense as follows:

| Year Ended June 30: | OPEB Expense |
|---------------------|--------------|
| 2023 | 273,807 |
| 2024 | 627,303 |
| 2025 | 749,843 |
| 2026 | 310,593 |
| Total | \$ 1,961,546 |
| | |

5. Actuarial Assumptions and Other Inputs

The total OPEB liability in the July 1, 2021 and 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Actuarial Cost Method | Entry Age Normal |
|----------------------------|--|
| Salary Increases | Consistent with various pension plan valuation assumptions in which employees participate. |
| Discount Rate | 2.18% and 2.66% S&P 20-year municipal bond index rate for June 30, 2021 and 2020, respectively. |
| Healthcare Cost Trend Rate | Pre-age 65 ranges from 7.0% to 4.5% for June 30, 2021 Post-age 65 ranges from 5.5% to 4.5% for June 30, 2021 |
| | Pre-age 65 ranges from 6.8% to 4.5% for June, 30, 2020 Postage 65 ranges from 5.3% to 4.5% for June 30, 2020 |
| Mortality | For healthy lives the RP-2014 Blue Collar (males) and White Collar (females) Healthy Annuitant Tables and the RP-2014 Combined Healthy Mortality Table (rolled back to 2006 using RP-2014 projection), then projected on a fully generational basis by Mortality Improvement Scale MP-2018 for June 30, 2021 and 2020. |
| | For existing disabled lives the RP-2000 Disabled Retiree Mortality Table not projected with mortality improvement for June 30, 2021 and 2020. |

The actuarial assumptions used by the pension plans covering the same participants were used for the retirement, termination, disability, and salary scale assumptions. The actuarial assumptions used in the July 1, 2021 and 2020, valuations were based on the results of an actuarial experience study for pension plan actuarial valuations for the period July 1, 2014 to June 30, 2018. There were no changes in benefit terms for 2021 and 2020.

No changes in benefits or assumptions have occurred between the June 30, 2021 and 2020 measurement dates of the collective total OPEB liability and the June 30, 2022 and 2021 reporting dates of the System, respectively, that are expected to have a significant effect on the System's proportionate share of the collective total OPEB liability.

6. Sensitivity of Total OPEB Liability

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the System's proportionate share of the collective total OPEB liability calculated using the discount rate of 2.18% and 2.66%, as well as what the System's proportionate share of the collective total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate for June 30, 2022 and 2021, respectively.

Total OPEB Liability Sensitivity to Changes in Discount Rate

| | Current | | | | | | |
|-----------------------------|---------------|---------------|---------------|--|--|--|--|
| | 1% Decrease | Discount Rate | 1% Increase | | | | |
| June 30, 2022 | | | | | | | |
| Discount Rate | 1.18% | 2.18% | 3.18% | | | | |
| Total OPEB Liability | \$ 26,571,439 | \$ 21,939,790 | \$ 18,366,374 | | | | |
| June 30, 2021 | | | | | | | |
| Discount Rate | 1.66% | 2.66% | 3.66% | | | | |
| Total OPEB Liability | \$ 22,337,251 | \$ 18,605,250 | \$ 15,702,038 | | | | |

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The following presents the System's proportionate share of the collective total OPEB liability as well as what the System's proportionate share of the collective total OPEB liability would be if it were calculated using the healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current rates for June 30, 2022 and 2021, respectively.

Sensitivity of Total OPEB Liability to Changes in Healthcare Cost Trend Rates

| . <u></u> | 1% Decrease | | Current Trend Rate | | 1% Increase | |
|---------------------------|-------------|------------|--------------------|------------|-------------|------------|
| 2022 Total OPEB Liability | \$ | 18,146,891 | \$ | 21,939,790 | \$ | 26,950,541 |
| 2021 Total OPEB Liability | \$ | 15,538,733 | \$ | 18,605,250 | \$ | 22,615,456 |

Schedules of Changes in Net Pension Liability

| | 2022 | 2021 | 2020 | 2019 | 2018 |
|---|-------------------|-------------------|-------------------|-------------------|-------------------|
| Total Pension Liability | | | | | |
| Service Cost | \$ 218,244,525 | \$ 218,244,525 | \$ 220,437,301 | \$ 218,865,385 | \$ 214,222,176 |

^{*}Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

Notes to Required Supplementary Information

A. Schedules of Changes in Net Pension Liability

The total pension liability contained in this schedule was provided by the System's actuary, Foster & Foster, and was determined based on the net pension liability actuarial assumptions found in the chart that follows. The net pension liability is measured as the total pension liability less the amount of the fiduciary net position of the System.

B. Schedules of Employers' Net Pension Liability

The schedule of employers' net pension liability shows the percentage of LASERS employers' net pension liability as a percentage of covered employee payroll and was determined based on the net pension liability actuarial assumption found in the chart that follows. The employers' net pension liability is the liability of contributing employers to members for benefits provided through LASERS. Covered employee payroll is the payroll of all employees that are provided with benefits through the plan.

C. Schedules of Employer Contributions

The difference between actuarially determined employer contributions and employer contributions received, and the percentage of employer contributions received to covered employee payroll is presented in this schedule. This information was determined based on the net pension liability actuarial assumptions found in the chart that follows.

D. Schedules of Investment Returns

The annual money-weighted rate of return is shown in this schedule. The money-weighted rate of return is calculated as the internal rate of return on pension plan investments, net of pension plan investment expense. This expresses investment performance adjusted for the changing amounts actually invested throughout the year, measured on daily inputs with expenses measured on an accrual basis.

E. Schedules of the System's Proportionate Share of the Collective Total OPEB Liability

This schedule shows the System's proportionate share of the collective total OPEB liability allocated to its current employees and retirees participating in the State of Louisiana Postretirement Benefit Plan as of June 30, 2022. No assets are accumulated in a trust that meets the criteria in paragraph four of Statement 75. Fiscal year end 2021 data was used in determining the System's proportionate share of the collective total OPEB liability. The discount rate changed from 2.66% as of June 30, 2020 to 2.18% as of June 30, 2021. The number of retirees participating in the plan increased by one to 49 from fiscal year end 2020 to 2021. There were no changes in benefit terms. The schedule also represents the percentage of the collective total OPEB liability to covered payroll. This information was determined based on the OPEB actuarial assumptions found in the chart that follows.

September 26, 2022

Dear Members,

For the fiscal year ended June 30, 2022, the Louisiana State Employees' Retirement System (LASERS) earned a -7.2% gross-of-feesⁱ, time-weighted return on investments. As a result, the total gross-of-fee investment value of the fund as of June 30, 2022, was just under \$12.5 billion. This return places LASERS in the top fifty-seventh percentile for the one-year period, as compared to other public pension plans with market values greater than \$1 billion in the Wilshire Trust Universe Comparison Service (TUCS)ⁱⁱ. Longer-term annualized rates of return are 12.2% for the two-year period, 8.2% for the six-year period, and 7.8% for the 10-year period.

The fiscal year began on the heels of an impressive post-pandemic recovery in which nearly every asset class posted hefty double-digit returns. Volatility was beginning to make a come back due to concerns about the spread of the Delta variant, although focus was starting to shift toward inflation and the Federal Reserve's tapering expectations. By the fall, the announcement that tapering would begin mid-November was made. Markets initially responded favorably, but then were spooked by the new Omicron variant. In December, the expectation for three rate hikes in 2022 was officially announced. Entering the 2022 calendar year with inflation at a multi-decade high and Russia-Ukraine concerns mounting, in January U.S. equity markets posted their worst week since March 2020. The following months saw inflation continue to increase due to Russia's entrance into Ukraine, new COVID fears and associated lockdowns in China, and the start of rate increases by the Federal Reserve. By fiscal year-end, three increases were made placing the Fed Funds target rate between 1.50% and 1.75%, with future increases highly likely. Markets flirted with bear market territory, gas prices reached record highs, and June marked the worst first half of a year since the early 1970s.

For the fiscal year, the Plan felt the impact of the on-going economic and market struggles. A new allocation was adopted by the Board of Trustees in February 2022, incorporating minor changes which included reducing the Emerging Market Debt allocation, eliminating the Cash allocation, and adding to Private Markets. A consistent source of positive returns, Private Markets was the sole positive contributor for the fiscal year, earning 13.8%. In comparison, the next highest return was provided by the Fixed Income portfolio which earned -3.6%. This was led by the -1.2% return in the Global Multi-Sector sleeve, which outperformed its benchmark by 12.4%. The Absolute Return Strategies portfolio returned -4.7%, beating its benchmark by 0.7%. U.S. Equity assets earned -13.6% while Non-U.S. Equities posted -15.8%. Within the Non-US Equities space, the Emerging Markets allocation beat its benchmark by 5.2% and the Developed International allocation beat its benchmark by 1.7%.

Board of Trustees **Louisiana State Employees' Retirement System** 8401 United Plaza Blvd. Baton Rouge, LA 70809

Dear Board Members.

As an independent investment advisor to the Louisiana State Employees' Retirement System (System) and its Board of Trustees (Board), NEPC is pleased to provide a fiscal-year ending overview of the investment policies, investment planning and implementation, and investment compliance, as well as a summary of investment markets during the FY2022.

INVESTMENT POLICIES

The System's investment policy can be accessed online at https://lasersonline.org/investments/investment-policy/. The investment policy includes a summary of the controlling statutes and regulations, the roles and responsibilities of those with oversight and management of the investment program, the System's investment objectives, an overview of performance benchmarking, an outline of the strategic asset allocation, and guidelines for managing and monitoring the investment program.

In NEPC's opinion, the System's assets are managed under a thorough and transparent set of investment policies and guidelines. These policies and guidelines appropriately highlight the long-term strategic performance objectives of the System and emphasize the dual importance of maintaining robust risk controls while pursuing long-term return objectives.

INVESTMENT PLANNING AND IMPLEMENTATION

The System's investment program continues to evolve to address a dynamically changing investment market. The LASERS strategic asset allocation targets 54% to diversified public equities, 20% to fixed income (including globally diversified across US bonds, global multisector fixed income, and emerging market debt), and 26% other alternative asset classes (including private equity, private debt, and absolute return investments). NEPC and the System's staff have focused on building an appropriate blend of return-seeking and diversifying sub-asset classes and investment managers in the implementation of the equity, fixed income, and alternatives portfolios.

Based on the FY2022 target allocations and on NEPC's June 30, 2022 capital market expectations, we forecast a nominal, annualized return of 7.85% over the next 10 years and 8.40% over the next 30 years. Additional risk metrics, such as risk budgeting and scenario stress testing, were applied in establishing the target asset allocation with the goal of balancing potential investment gains with potential downside risks.

FISCAL YEAR 2022 MARKET COMMENTARY

Following FY2021, when equity markets were bolstered by optimism surrounding the reopening of economies from COVID-19 restrictions, capital markets in FY2022 declined sharply on concerns related to rising inflation and the associated response from the Federal Reserve toward monetary and quantitative tightening.

High inflation and dramatic increases in interest rates during FY2022 ratcheted up concerns of a recession. Major global equity indexes declined sharply in the second half of the fiscal year. US equity markets (as measured by the S&P 500 Index) ended the 12-months of FY2022 with a return of -10.6%. Within the U.S. stock market, small cap stocks (as measured by the Russell 2000 Index) underperformed large cap stocks, posting a one-year return of -23.4%. Developed international equity markets (as measured by the MSCI EAFE Index) ended FY2022 with a 12-month return of -17.8%. The MSCI Emerging Markets Index ended the fiscal year with a one-year return of -17.6%.

As headline inflation rose to a 40-year high of 9.1%, the U.S. Federal Reserve raised its benchmark interest rate from a range of 0.00% - 0.25% at the end of FY2021 to a range of 1.5% - 1.75% by the end of FY2022, with an additional 0.75% rate hike in July 2022. In addition, the U.S. central bank began a quantitative tightening program in June, with the intention of reducing its \$9 trillion in balance sheet assets. In response, the 10-year U.S. Treasury yield rose 1.45% to 2.98% over the 12-months ending June 30, 2022, which was a headwind for the U.S. investment grade bond market. The Bloomberg U.S. Aggregate Index ended the fiscal year down -10.3%, with the Bloomberg U.S. Treasury Index down -8.9% for the trailing 12-month period ending June 30, 2022. The U.S. high yield bond market (as measured by the Bloomberg US High Yield Index) posted a return of -12.8% over the same period. In real assets, commodities continued their rebound off calendar year 2020 lows with the Bloomberg Commodities Index posting one-year gains of +24.3% and WTI crude oil prices rising 43.9% since June 30, 2021.

INTERNAL COMPLIANCE AND OVERSIGHT

Regular testing of System's portfolios and a continuous review of the compliance function is viewed as industry best practices. While serving as the System's investment advisor, NEPC has witnessed staff's consistent and ongoing efforts to improve the effectiveness of their internal reporting and compliance procedures. NEPC also believes that the Investment Division's support of the CFA® Institute's Code of Ethics and Standards of Professional Conduct, as well as the guidelines and procedures that are set forth in the LASERS Personal Trading Policies, are consistent with industry best practices.

The daily management of the System's assets has been clearly delegated to the System's investment staff. In NEPC's opinion, this clear delegation and responsibility and accountability helps the Board maintain effective oversight of the System's defined benefit, and defined contribution funds. Monthly investment performance reviews, regular oversight of staff's activities, and reviews of investment service providers, continue in support of the Board's oversight duties.

Sincerely,

Rhett Humphreys, CFA, Partner

Rhett Kumphay

Summary of Investment Policy

I. Statement of Investment Objectives

This document specifically outlines the investment philosophy and practices of LASERS and has been developed to serve as a framework for the management of the System's defined benefit plan. The Board has established the investment guidelines to formalize investment objectives, policies and procedures, and to define the duties and responsibilities of the various entities involved in the investment process. All policy decisions shall include liquidity and risk considerations that are prudent and reasonable under the circumstances that exist over time. The policies will evolve as the internal conditions of the fund and the capital markets environment changes. Any resulting material changes will be communicated to all affected parties.

II. Controlling Statutes and Regulation

Investments of the Louisiana State Employees' Retirement System shall be made in full accordance with Louisiana Revised Statutes, applicable legislation or regulation as well as LASERS internal policies and procedures. Among other applicable rules and regulations, the following apply:

LASERS shall operate under the "Prudent Man" rule, used herein meaning, that when investing, the Board shall exercise the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent institutional investor acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. LASERS will apply this standard to the entire fund portfolio, and as part of an overall investment strategy. This will include an asset allocation study and a plan for implementation which will incorporate risk and return objectives reasonably suitable to the fund. The following types of risk are to be examined: market value, credit, interest rate, inflation, counterparty, and concentration. The study and implementation of such plan will be designed to preserve and enhance principal over the long term, provide adequate liquidity and cash flow for the system, and minimize the risk of loss unless it is clearly prudent not to do so.

LASERS is subject to a legislative limit restricting the fund so that no more than 65% of its total assets are invested in publicly traded equities. Should LASERS have more than 55% of its total assets invested in publicly traded equities, at least 10% of those equities must be invested in one or more index funds. Alternative assets are not considered to be equities when calculating LASERS equity exposure. LASERS is aware that markets will fluctuate, and any rebalancing will appropriately consider market conditions and any other relevant factors.

III. Roles and Responsibilities

The following section outlines the roles and responsibilities for each of the parties involved with executing the policy. In addition to the activities described below, each person involved with the policy serves as a fiduciary and will adhere to the "Prudent Man" rule as described in State Statute.

Board of Trustees

The Board of Trustees is responsible for the total investment program. The Board shall approve

the investment policy, and provide overall direction to the administrative staff in the execution of the investment policy. The Board will conduct formal annual evaluations of the administrative staff, investment consultant, and custodian.

Investment Committee

The Investment Committee was established by the Board to assist in oversight of the investment program; it will consist of not less than seven members of the Board. The Committee reviews and makes recommendations to the Board on investment actions including, but not limited to, the following:

- Asset Allocation
- Asset Management
- Risk Control
- Monitoring

Chief Investment Officer

The Chief Investment Officer (CIO) shall assist the Board in developing and modifying policy objectives and guidelines, including the development of liability driven asset allocation strategies and recommendations on long-term asset allocation, and the appropriate mix of investment manager styles and strategies. Choosing appropriate manager styles and strategies will include assisting the Board in evaluating the use of index funds as an alternative to active management. Additionally, the CIO shall provide assistance in manager searches and selection, investment performance calculation and evaluation, and any other analysis associated with the proper execution of the Board's directives.

The CIO shall also communicate the decisions of the Investment Committee to investment managers, custodian bank(s), actuary, and consultant. The CIO provides oversight of the investment consultant, investment service providers, and personnel of LASERS investment division.

Investment Consultant

The Investment Consultant works under direction of the Board, offering a third-party perspective and providing an additional level of oversight to the System's investment program. The Consultant's normal functions shall include assisting the Board and the CIO in developing and modifying policy objectives and guidelines, including the development of a liability-driven asset allocation strategy and recommendations on the appropriate mix of investment manager styles, strategies, and funding levels.

Investment Managers

The duties and responsibilities of each of the investment managers retained by the Board include, but may not be limited to, the following:

- Investing the assets under its management in accordance with the policy guidelines and objectives as well as directives listed in individual investment manager agreements.
- Meeting or exceeding the manager-specific benchmarks, net of all fees and expenses.
- Exercising investment discretion within the guidelines and objectives.

- Complying with all provisions pertaining to the investment manager's duties and responsibilities as a fiduciary.
- Complying with the CFA Institute's Code of Ethics & Standards of Professional Conduct and Global Investment Performance Standards (GIPS).
- Disclosing all conflicts and potential conflicts of interest.
- Ensuring that all portfolio transactions are made on a "best execution" basis.
- Exercising ownership rights, where applicable.
- Meeting with the Board as needed upon request of the Board, and timely submitting all required reports.
- Promptly informing the Board regarding all significant matters pertaining to the investment of the fund assets.
- Initiating written communication with the Board when the manager believes that this Investment Policy is inhibiting performance and/or should be altered for any valid reason. No deviation from the guidelines and objectives established in the Policy is permitted until after such communication has occurred and the Board has approved such deviation in writing.
- Reconciling performance, holdings, and security pricing data with the Fund's custodian bank.
- Any other duties included in the contract.

Custodian Bank

The Custodian is responsible for the safekeeping of System assets and serves as the official book of record. It is understood that investments that are held in partnerships, commingled accounts, or unique asset classes are unable to be held by the System's custodian bank.

The Custodian(s) will be responsible for performing the following functions:

- Holding System assets directly, through its agents, its sub-custodians, or designated clearing systems.
- Registration of System assets in good delivery form, collection of income generated by those assets, and any corporate action notification.
- Delivery and receipt of securities.
- Disbursement of all income or principal cash balances as directed.
- Providing daily cash sweep of idle principal and income cash balances.
- Providing online records and reports.
- Providing monthly statements by investment managers' accounts and a consolidated statement of all assets.
- Providing monthly performance reports and quarterly performance analysis reports.
- Notifying appropriate entities of proxies.
- Managing the securities lending program (if applicable).
- Overseeing domestic securities class actions on behalf of the System.
- Providing a compliance monitoring system.
- Any other duties and services included in the contract.

IV. Investment Objectives

Nominal Return Requirements

The investment program shall be structured to preserve and enhance principal over the long term,

in both real and nominal terms. For this purpose, short-term fluctuations in values will be considered secondary to long-term investment results. The investments of the Fund shall be diversified to minimize the risk of significant losses. Total return, which includes realized and unrealized gains, plus income less expenses, is the primary goal of LASERS.

The actuarial valuation discount rate for the Fund was 7.25% for the period ending June 30, 2021. However, LASERS seeks to achieve a long-term actuarial assumed rate of return that is 35 basis points greater than the discount rate in order to account for the expected cost of gain-sharing which is allocated to the Experience Account to fund future permanent benefit increases.

Relative Return Requirements

LASERS seeks to have total returns rank in the top half of the appropriate public fund universe, reflecting similar circumstances to the Fund. The Total Fund return should, over time, exceed the Policy and Allocation Indices. Returns for LASERS managers should exceed their respective benchmarks, as well as rank in the top half of the appropriate universe of managers adhering to the same investment strategy.

The Board further recognizes that the return targets described herein may not be achieved in any single year. A longer-term horizon of five to seven years shall be used in measuring the long-term success of the Fund. While the Board expects that returns will vary over time, LASERS has a risk tolerance consistent with that of other funds created for similar purposes, and the assets of the Fund shall be invested accordingly.

V. Performance Benchmarks

Total Fund Return

The Total Fund return shall be compared against other public pension plans. LASERS will compare its returns against other funds of similar size and circumstances. LASERS Total Fund return should meet or exceed the Allocation Index return and the Policy Index return, which are each described below.

Allocation Index

The Allocation Index return shall measure the success of the Fund's current allocation. It shall be calculated by using index rates of return for each asset class invested in by the Fund multiplied by the actual percent allocated to each asset class. The difference between the Allocation Index return and the Total Fund return measures the effect of active management. If the Total Fund return is greater than the Allocation Index return, then active management has in aggregate added value. If the Total Fund return is less than the Allocation Index return, then active management has not added value.

Policy Index

The Policy Index return shall measure the success of the Fund's target allocation. It shall be calculated by using index rates of return for each asset class invested in by the Fund multiplied by the percent targeted to each asset class. The difference between the Allocation Index return and the Policy Index return measures the effects of deviating from the target allocation. If the Allocation Index return is greater than the Policy Index return, then deviating from the target allocation has

added value. If the Allocation Index return is less than the Policy Index return, then deviating has not added value.

Manager Benchmarks

LASERS Investment Managers shall be compared to a combination of passively-managed index returns matching the managers' specific investment styles, as well as the median manager in their appropriate peer group universe.

VI. Asset Allocation

The foundation of the System's strength and stability rests upon the diversification of plan assets. The following section outlines the current asset allocation, which was designed to achieve the required return objectives of the System, given certain risk considerations. This is to be pursued by LASERS on a long-term basis, but will be revised if significant changes occur within the economic and/or capital market environments. Changes in liability structure, funded status, or long-term investment prospects should trigger a revision of the asset allocation.

Based on the Board's determination of the appropriate risk tolerance for the System and its long-term expectations, the following asset class policy target allocation and permissible ranges have been established:

Target Asset Mix

| | Fair Value | Minimum | Maximum |
|----------------------------------|------------|--------------|--------------|
| Asset Class | Target (%) | Exposure (%) | Exposure (%) |
| Equities | 54 | 44 | 64 |
| Domestic Large Cap | 23 | 18 | 28 |
| Domestic Mid and Small Cap | 8 | 3 | 14 |
| Established International Equity | 15 | 5 | 25 |
| Emerging International Equity | 8 | 2 | 14 |
| Fixed Income | 20 | 11 | 31 |
| Core Fixed Income | 3 | 0 | 10 |
| Global Multi-Sector | 14 | 9 | 19 |
| Emerging Market Debt | 3 | 0 | 8 |
| Alternative Assets | 26 | 16 | 36 |
| Private Markets | 22 | 17 | 27 |
| Absolute Return | 4 | 0 | 9 |
| Cash | 0 | 0 | 5 |

Implementation

LASERS recognizes that special expertise is required to properly invest the majority of the assets described. However, certain highly-efficient, passively-managed investment strategies lend themselves to internal management, resulting in lower management fees for the Fund as a whole. Where appropriate, LASERS will manage these assets internally, so long as the same level of care, prudence, and oversight is maintained as an outside professional investment advisor would typically provide.

Rebalancing

The CIO will review LASERS asset allocation at least quarterly to determine if it is consistent with the exposure ranges established for LASERS described herein. The CIO will direct staff and investment managers to transfer funds to rebalance the asset allocation as necessary. The CIO will consider market conditions and transaction costs, as well as any other relevant factors when rebalancing.

VII. Risk Management

It is recognized that risk issues permeate the entire investment process, and risk is considered throughout the investment process from asset allocation to performance evaluation. Ongoing monitoring will be accomplished through a "mosaic" approach, in which various forms of analysis and reporting contribute to the total picture. Inspection of levels of diversification, nominal risk exposures, risk/return plots, sortino ratio, Value at Risk, tracking error, and worst-case scenarios modeling form the core of the monitoring process.

VIII. Manager Selection

LASERS reserves the right to retain managers to oversee portions of the System's assets. Manager selection is accomplished in accordance with the vendor selection criteria in LASERS Board Governance Policy.

LASERS will not consider the selection of any manager without first setting a target allocation to a particular asset class, and determining that a manager is needed to implement that allocation strategy. Once LASERS has determined that a manager search is warranted, it will establish certain minimum criteria for a manager to be considered eligible to participate in the search. LASERS intends that any qualified candidate receive fair consideration. As such, industry recognized databases will be used for screening purposes to ensure that an unbiased and objective search process is achieved.

In selecting investment managers, LASERS will follow a due diligence process, so as to avoid selecting managers on an ad hoc basis. The process will involve analyzing investment manager candidates in terms of appropriate criteria. LASERS shall strive to hire investment managers who offer the greatest incremental benefit to the Fund, net of fees and expenses, in accordance with, but not limited to, the due diligence criteria listed below:

Qualitative Factors

- Appropriateness of investment philosophy and process,
- Fit between product and existing plan assets, liabilities and objectives,

Length of key professionals' tenures.

Quantitative Factors

- Absolute and relative returns, and variability of returns,
- Portfolio characteristics.

Organizational Factors

- Length of firm history,
- Stability of the firm's client base and assets under management,
- Ownership structure,
- Compensation structure,
- Fee structure,
- References and professional qualifications.

As private markets does not lend itself to traditional manager searches, LASERS shall seek to perform the same level of due diligence on these opportunities as it would in a typical manager search. Because most private markets products have only brief, discrete time periods during which they are raising assets, LASERS will consider an additional investment with an existing manager if the investment philosophy, process, people, performance, and fees are materially similar to previous investments. LASERS may invest with a new manager only after the appropriate due diligence is performed.

As part of the search process, prospective candidates will be required to disclose any campaign contributions made to any LASERS Trustee, staff member, or elected official in Louisiana who can influence the selection of an advisor or manager.

IX. Investment Manager Guidelines

Full discretion, within the parameters of the guidelines, is granted to the investment managers regarding the selection of securities and the timing of transactions. Compliance with all guidelines must be monitored by the investment managers on a regular basis (monthly or more frequently when market conditions warrant) and based on then current market values. Securities that, at purchase, would move the portfolio out of compliance with these guidelines, based on the investment manager's most recent valuation, may not be purchased.

In the event that a portfolio moves out of compliance with these guidelines (as identified in the investment manager's regular review of the portfolio), through market conditions or other changes outside the control of the manager, the manager must bring the portfolio composition back into compliance within 45 days, or make a written request to LASERS Investment Committee for a compliance waiver.

X. Investment Manager Monitoring

General Guidelines

LASERS shall monitor and evaluate manager performance using the following resources:

- Monthly performance reports,
- Quarterly Investment Performance and Portfolio Analysis,

- Comprehensive Manager Reviews at the end of a manager's contract with LASERS,
- Other analyses as needed.

Monitoring and Verification

Certain guidelines lend themselves to straightforward manager compliance monitoring. These guidelines will be monitored using daily holdings and transaction information provided by the Fund's custodian bank. The custodian will monitor manager compliance by way of their investment policy reporting software and shall be responsible for alerting the Staff if a manager is out of compliance.

Guidelines which do not lend themselves to straightforward manager compliance monitoring shall rely on manager-supplied attestations of compliance. A guideline compliance checklist shall be reviewed every quarter to ensure that all managers have reported guideline compliance, and note instances where managers claim to be out of compliance.

Manager Evaluation

- LASERS portfolios shall be measured over various and appropriate time periods.
- A horizon of three to seven years shall be used in measuring the long-term success of the manager.
- Shorter time periods shall be evaluated as appropriate and necessary. LASERS shall make
 every effort to look at all factors influencing manager performance, and attempt to discern
 market cyclicality from manager over/under performance.
- On a timely basis, at least quarterly, the Board will review actual investment results achieved
 by each manager (with a perspective toward a three to five-year time horizon or a peak-to-peak
 or trough-to-trough market cycle) to determine whether the investment managers performed
 satisfactorily when compared with the objectives set, and in relation to other similarly managed
 funds.
- Investment managers will periodically, upon request, present to the Board a portfolio review. This should include an update of the firm, current investments, their investment process, performance, and their outlook for the market.
- The Board will periodically assess the continued appropriateness of: (1) the manager structure; (2) the allocation of assets among the managers; and (3) the investment objectives for LASERS assets.
- The Board may appoint investment consultants to assist in the ongoing evaluation process. The
 consultant(s) selected by the Board are expected to be familiar with the investment practices of
 similar retirement plans and will be responsible for suggesting appropriate changes in LASERS
 investment program over time.

Schedules of Investment Expenses and Asset Allocation

Board of Trustees Louisiana State Employees' Retirement System Post Office Box 44213 Baton Rouge, Louisiana 70804-4213

Dear Board Members:

Pursuant to your request, we have completed the annual actuarial valuation for the Louisiana State Employees' Retirement System as of June 30, 2022. The valuation was prepared relying on the data submitted by the Retirement System and the actuarial assumptions adopted by the Board of Trustees and reflects the current benefit structure on the valuation date. The primary purpose of the actuarial valuation is to determine the funding requirements of the members and participating employers, to describe the current financial condition of the System, and to analyze changes in the System's funding condition since the prior valuation. In addition, the report provides various summaries of data. The report may not be appropriate for other purposes. The financial reporting requirements of the Governmental Accounting Standards Board (GASB) Statements No. 67/68 in total for the plan are included in the June 30, 2022 Actuarial Valuation Report.

Funding Objective

The funding objective of the Retirement System was established by Constitutional Amendment Number 3 during the 1987 Legislative Session, which requires the current normal cost, determined in accordance with the prescribed statutory funding method, to be fully funded, and requires the unfunded accrued liability as of June 30, 1988, to be fully liquidated by 2029 with subsequent changes in unfunded liabilities amortized as specified by statute.

Progress Toward Realization of the Funding Objective

The employer contributions determined by the June 30, 2022 actuarial valuation and the member contributions, paid as a percentage of payroll, are expected to be sufficient to achieve the funding objective set forth above. The progress toward achieving the intended funding objectives can be measured by funding level, determined as the ratio of actuarial assets to the actuarial accrued liabilities. The current funded ratio is 66.5%. If the experience develops as assumed, and if contribution requirements are met, this ratio is expected to increase over time and the unfunded accrued liabilities will be paid off according to the constitutional and statutory funding objectives of the plan.

The results of the current valuation indicate that the aggregate employer contribution rate for the plan year commencing July 1, 2022, should have been set at 41.9% of payroll, which is an increase from the 41.0% projected aggregate rate set by the Public Retirement Systems' Actuarial Committee.

The actuarial value of assets is determined as the market value of assets adjusted to gradually recognize investment gains and losses relative to the net assumed investment return, over a five-year period in 20% increments. The adjusted asset value is subject to corridor limits of 80% to 120% of the market value of assets. The objective of the asset valuation method is to smooth the volatility due to market conditions on the measurement date. The actuarial value of assets for the plan year ending on June 30, 2022, is \$13,847,395,352. After adjusting for the Experience Account balance of \$23,082,605 the valuation assets used for funding purposes is \$13,824,312,747.

Data

In performing the June 30, 2022, valuation, we have relied upon the employee data and financial information provided by the administrative staff of the Louisiana State Employees' Retirement System. Participant data was not audited but was reviewed for reasonableness and consistency relative to data used for prior year valuations. Plan assets were compared with information furnished for the prior plan year's valuation and reviewed for consistency.

Methods and Assumptions

The present values shown in the June 30, 2022, actuarial valuation and supporting statistical schedules of this certification, which comprise all the schedules of the Actuarial Section in the annual Financial Report, have been prepared in accordance with the actuarial methods specified in Louisiana Revised Statutes Title 11 Section 22(6) and assumptions which are appropriate for the purposes of this valuation. Valuation results presented in this report are based on the Entry Age Normal cost method as prescribed by state law.

The Board reduced the discount rate from 7.40% to 7.25%, effective June 30, 2022.

Following the completion of an experience study for the period July 1, 2013 through June 30, 2018, the Board adopted a revised set of actuarial assumptions to better project plan experience based on the results of the study. The following actuarial assumptions were revised, effective June 30, 2019: retirement/DROP rates, inflation, salary increases, withdrawal rates, disability incidence rates, and mortality rates. The inflation and salary increase assumptions were reduced effective June 30, 2020. Sample rates from the revised assumption tables are included in the supporting schedules.

The actuarial assumptions and methods used are within the parameters set forth by the Government Accounting Standards Board (GASB) Statement No. 67 and were employed in the development of the schedules listed below for the Financial Section of this report.

Supporting Schedules

The following supporting schedules were prepared by the system's actuary for the Comprehensive Annual Financial Report:

Actuarial Section

- Summary of Actuarial Methods and Assumptions
- Summary of Unfunded Actuarial Liabilities/Solvency Test
- Summary of Actuarial and Unfunded Actuarial Liabilities
- Reconciliation of Unfunded Actuarial Liabilities
- Membership Data
- Principal Provisions of the Plan

Financial Section

- Schedules of Changes in Net Pension Liability
- Schedules of Employers' Net Pension Liability
- Schedules of Employer Contributions

We certify that, to the best of our knowledge, the methods and assumptions comply with generally recognized and accepted actuarial principles and practices set forth by the American Academy of Actuaries, are reasonable and represent our best estimate of the funding requirement to achieve the Retirement System's Funding Objective, unless otherwise noted. Shelley is an Associate in the Society of Actuaries and Pat is a Fellow in the Society of Actuaries. We are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Respectfully submitted,

FOSTER & FOSTER INC.

Summary of Actuarial Methods and Assumptions

The actuarial cost method is prescribed in Section 22 of Title 11 of the Louisiana Revised Statutes. The asset valuation method was adopted by the Board of Trustees of the Louisiana State Employees' Retirement System of Louisiana (LASERS). The assumptions outlined below were adopted by the LASERS Board of Trustees based on the recommendations presented to the Board following the completion of the 2014-2018 actuarial experience study.

I. General Actuarial Method

1. Actuarial Cost Method/Amortization of Changes in UAL

The Actuarial cost method, Entry Age Normal, is prescribed in Section 22 of Title 11 of the Louisiana Revised Statutes. Non-investment actuarial gains and losses and investment experience losses are amortized over 30 years with level payments. Investment gains up to the statutory threshold are allocated to the Original Amortization Base and Experience Account Amortization Base. Any remaining gains are amortized for 30 years with level payments. One half of the gain is then amortized as a loss over a ten-year amortization period and the funds are allocated to the Experience Account to fund future permanent benefit increases that have not yet been granted. Further details are provided below.

Historical treatment of changes in UAL:

The unfunded accrued liability on June 30, 1988, also referred to as the initial unfunded accrued liability, or initial UAL, was amortized over a forty-year period commencing in 1989. The amortization payment initially reflected a 4% increase for the first five years, reducing by 0.5% at the end of each five-year period, but has subsequently been revised by Acts of the Louisiana Legislature as described below. Changes in unfunded accrued liabilities occurring after June 30, 1988, were originally amortized as a level dollar amount as follows:

| | Act 81 | |
|-------------------------|---------------|---------------------------|
| | Effective | As Amended Act 257 |
| | 6/30/88 | Effective 6/30/92 |
| Experience Gains/Losses | 15 years | Later of 2029 or 15 years |
| Actuarial Assumptions | 30 years | Later of 2029 or 30 years |
| Actuarial Methods | 30 years | Later of 2029 or 30 years |
| Benefit Changes | Determ | ined by enabling statute |

Act 257 of 1992 further amended the amortization schedule to reflect a 4.5% payment increase over the remaining amortization period.

Act 588 of 2004 re-amortized changes in liabilities occurring from 1993 thru 1998 as a level dollar payment to 2029. Amortization periods for changes in liabilities beginning with 1999 were extended to a thirty-year period from the date of occurrence, with a 4.5% increasing payment schedule.

Amortization periods for changes in liabilities beginning with 2004 are extended to a thirty-year period from the date of occurrence, paid as a level dollar amount.

Act 484 of 2007 and resulting Constitutional Amendment requires increases in UAL due to altered benefit provisions by legislative enactment to be amortized over a ten-year period with level payments.

Act 497 of 2009 consolidates the outstanding balance of all amortization schedules established on or before July 1, 2008, except those established due to an increase in benefits after 2007, into two amortization schedules, the Original Amortization Base (OAB) and the Experience Account Amortization Base (EAAB), beginning July 1, 2010. The outstanding balance of the OAB was credited with funds from the Initial UAL fund, excluding the subaccount of this fund. The OAB will be paid off by plan year ending June 30, 2029. The EAAB was credited with funds from the Initial UAL subaccount, which were transferred from the Employee Experience Account on June 30, 2009. The EAAB will be paid off by plan year ending June 30, 2040. Payments increased according to the requirements of Act 497, and beginning July 1, 2018, OAB payments will increase by 2.0% per year, and EAAB payments will be level.

Additionally, Act 497 changed the amortization of investment gains relative to the discount rate. Previously, one-half of any investment gain was amortized over a thirty-year period with level payments and one-half was credited to the Experience Account. Act 497 specifies that the first \$100 million of any investment experience gain will be credited to the OAB and EAAB, with reamortization of these schedules. One-half of the remaining gain is credited to the Experience Account, up to the maximum limit of this account and any remaining gain is amortized over a thirty-year period with level payments.

Employer contribution requirements for normal costs and amortization of the unfunded accrued liabilities are determined as a percentage of payroll. The discrepancy between dollars generated by percent of payroll versus the required dollar amount is treated as a shortfall credit/debit. The five-year level amortization payment of the debit/credit is applied to the following year's contribution requirement. Act 497 provided that contribution variance credits through plan year 2016/2017 would be credited to the OAB. Subsequent overpayments through plan year 2039/2040 will be credited to the EAAB.

Act 399 of 2014 changed the allocation of investment gains to existing schedules and to the Experience Account and changed the amortization of any remaining investment gains.

Act 95 of 2016 modified the provisions of Act 399. Investment gains are first allocated to the OAB and EAAB, without re-amortization, up to the \$100 million threshold amounts, indexed beginning June 30, 2016. By not re-amortizing, gains applied to these schedules result in earlier pay-off of these schedules. One-half of any remaining gains are credited to the Experience Account up to the statutory cap. Any remaining gains are then amortized over 30 years with level payments. Beginning in 2016, the full investment gain remaining after the allocation to the OAB and EAAB will be amortized over 30 years, and any gains credited to the Experience Account will be amortized as an offsetting loss over a ten-year period. Once the system attains a 70% funded ratio, all future gains and losses will be amortized over 20 years. The OAB was re-amortized with level-dollar payments to 2029 on June 30, 2021. If the System is less than 80% funded, the net remaining liability of the OAB and EAAB shall be re-amortized after application of the "threshold allocations" in Fiscal Year

2019/2020 and in every fifth fiscal year thereafter. Once the system attains an 80% funded ratio, the OAB and EAAB will be re-amortized following allocations of "threshold allocations" or contribution variance surpluses. Act 399 extended the application of the threshold after the OAB and EAAB are paid off and provides for the allocation of funds.

Statutory provisions pertaining to LASERS provide for the automatic transfer of a portion of excess investment earnings to the Experience Account to potentially fund future post-retirement benefit increases. Since the law does not provide for automatic post-retirement benefit increases, the liabilities do not explicitly include future retiree benefit increases. However, since a portion of investment earnings will be used to fund potential future ad hoc benefit increases, the accrued benefits are discounted using a net discount rate. The net discount rate is determined as the expected long-term return net of investment expenses, less the expected return used to provide for future retiree benefit increases. Since the discount rate for funding purposes reflects LASERS specific gain sharing provisions, the assumptions recognize that investment earnings will be diverted to fund the ad hoc increases.

2. Asset Valuation Method

The actuarial value of assets is determined as the market value of assets adjusted to gradually recognize investment gains and losses relative to the net assumed investment return, over a five-year period in 20% increments, and is subject to Corridor Limits of 80% to 120% of the market value of assets.

3. Valuation Data

The administrative staff of LASERS furnishes the actuary with demographic data relating to the active life membership and retired life members. Retired life members included inactive members who are entitled to a deferred reciprocal or vested benefit. The administrative staff of LASERS provides the book value and fair value of system assets. All data is reviewed for reasonableness and consistency from year to year but is not audited by the actuary.

II. Economic Assumptions

1. Actuarially Assumed Rate of Return

The June 30, 2022 valuation for funding and GASB reporting was prepared with a discount rate of 7.25%. The discount rate for funding purposes reflects the assumed investment rate of return, net of investment expenses, and net of investment gains expected to be allocated to the Experience Account to fund permanent benefit increases. A long-term (thirty-year) average of 35 basis points is assumed to be transferred to the Experience Account annually. By excluding investment returns to be used to fund future permanent benefit increases, the discount rate for funding purposes represents the expected return on investments to be used to fund regular plan benefits. The assumed long-term geometric average nominal rate of return inherent in the funding valuation is 7.60%. For GASB reporting purposes, the discount rate reflects the assumed investment rate of return net of investment expenses.

2. Employee Salary Increases

Incorporated in the following salary scales (shown for periodic durations but representing full range of assumptions) is an explicit 2.30% inflation assumption. The following salary scale is based upon years of service:

| Duration | Regular State | | Corrections, Haz |
|----------|------------------|--------|------------------|
| (Years) | Employees | Judges | Duty, Wildlife |
| 0 | 12.80% | 5.05% | 13.80% |
| 5 | 4.90% | 2.55% | 5.55% |
| 10 | 3.60% | 2.55% | 4.80% |
| 15 | 3.20% | 2.55% | 3.55% |
| 20 | 3.00% | 2.55% | 3.55% |
| 25 | 3.00% | 2.55% | 3.55% |
| 30 | 3.00% | 2.55% | 3.55% |

III. Demographic Assumptions

1. Mortality Assumption

Pre-retirement deaths and post-retirement life expectancies are projected in accordance with the following mortality tables and adjustment factors, based on the mortality patterns observed in the 2014-2018 experience study.

General Active Employees

Males RP-2014 Blue Collar Employee * 0.978 Females RP-2014 Blue Collar Employee * 1.144

Public Safety Active Employees

Males RP-2014 Blue Collar Employee * 1.005 Females RP-2014 Blue Collar Employee * 1.129

General Retiree/Inactive Employees

Males RP-2014 Blue Collar Annuitant * 1.280 Females RP-2014 White Collar Annuitant * 1.417

Public Safety Retiree/Inactive Employees

Males RP-2014 Blue Collar Annuitant * 1.185 Females RP-2014 Blue Collar Annuitant * 1.017

Disability Retirees

Males RP-2000 Disability Retiree * 1.009 Females RP-2000 Disability Retiree * 1.043 Mortality assumptions for active and regular retirees include adjustments for expected future mortality improvement using the MP-2018 Generational Improvement Scale. Mortality assumptions for Disability Retirees include no adjustments for expected future mortality improvement, based on plan experience.

2. Disability Assumption

Rates of total and permanent disability were projected by age in accordance with the 2014-2018 disability experience of the Retirement System. Sample rates are illustrated by employment classification.

| | Regular State | | Corrections, Haz |
|-----|---------------|--------|------------------|
| AGE | Employees | Judges | Duty, Wildlife |
| 25 | 0.01% | 0.00% | 0.01% |
| 30 | 0.01% | 0.00% | 0.05% |
| 35 | 0.05% | 0.00% | 0.13% |
| 40 | 0.10% | 0.00% | 0.17% |
| 45 | 0.15% | 0.02% | 0.28% |
| 50 | 0.22% | 0.02% | 0.55% |
| 55 | 0.30% | 0.02% | 0.80% |

3. Termination Assumptions

Voluntary withdrawal rates are derived from the 2014-2018 termination experience study. Sample rates are illustrated by employment classification below.

| Regular State Employees | | | | | | | | | |
|-------------------------|-------|-------|---------|------------|-------|------|--------|--|--|
| | | | Years o | of Service | | | | | |
| Age | < 1 | 1 | 2-3 | 4-6 | 7-9 | 10+ | Judges | | |
| 25 | 32.5% | 27.0% | 20.0% | 16.0% | 10.5% | 8.0% | 1.20% | | |
| 30 | 29.0% | 23.0% | 18.0% | 13.3% | 10.5% | 8.0% | 1.20% | | |
| 35 | 29.0% | 22.0% | 18.0% | 13.3% | 8.0% | 5.5% | 1.20% | | |
| 40 | 28.0% | 18.0% | 15.0% | 13.0% | 8.0% | 5.5% | 1.20% | | |
| 45 | 25.0% | 18.0% | 14.0% | 12.5% | 8.0% | 5.0% | 1.20% | | |
| 50 | 25.0% | 18.0% | 12.5% | 11.5% | 7.5% | 5.0% | 1.20% | | |

| | | | Wil | dlife | | | | | |
|-----|-------|-------|-------|-------------|-------|------|------|----------|---------|
| | | | Yea | ars of Serv | vice | | | Years of | Service |
| Age | <1 | 1 | 2 | 3-4 | 5-7 | 8-9 | 10+ | <6 | 6+ |
| 25 | 48.0% | 30.5% | 30.0% | 24.0% | 15.5% | 6.4% | 2.8% | 7.6% | 0.5% |
| 30 | 43.5% | 25.5% | 24.0% | 20.0% | 13.5% | 6.4% | 2.8% | 7.6% | 0.5% |
| 35 | 43.5% | 25.5% | 20.0% | 20.0% | 10.0% | 6.4% | 2.8% | 7.6% | 0.5% |
| 40 | 41.0% | 21.0% | 20.0% | 15.5% | 9.0% | 6.4% | 2.8% | 7.6% | 0.5% |
| 45 | 32.0% | 17.0% | 12.0% | 15.5% | 9.0% | 6.4% | 2.8% | 7.6% | 0.5% |
| 50 | 27.5% | 17.0% | 12.0% | 10.0% | 9.0% | 6.4% | 2.8% | 7.6% | 0.5% |

For members terminating with ten or more years of service, it is assumed that 80% will not withdraw their accumulated employee contributions.

4. Retirement/DROP Assumptions

Retirement rates and DROP probabilities were projected based upon the 2014-2018 experience study. At eligibility, including eligibility for a reduced early retirement benefit, the probability of retirement or DROP is determined based upon the Retirement/DROP assumptions, based on the most recent experience study. Sample rates are illustrated by employment classification below:

| Regular Members |
|------------------|
| Years of Service |

| Age | < 10 | 10-19 | 20-24 | 25-29 | 30+ |
|-----|------|-------|-------|-------|-----|
| 45 | 0% | 5% | 5% | 5% | 0% |
| 50 | 0% | 10% | 10% | 10% | 20% |
| 55 | 0% | 18% | 18% | 60% | 60% |
| 60 | 35% | 35% | 35% | 35% | 35% |
| 65 | 20% | 20% | 20% | 20% | 20% |
| 70 | 18% | 18% | 18% | 18% | 18% |

Principal Provisions of the Plan

The Louisiana State Employees' Retirement System (LASERS) was enacted in 1947. Initially, the plan covered regular State Employees (Regular Plan), but membership has expanded to participating agencies, and the merger of Louisiana State University Administration Employees and the Judges Retirement System. The purpose of the plan is to provide benefits to members and their dependents at retirement or in the event of death, disability, or termination of employment. LASERS is a defined benefit plan and is funded on an actuarial reserve basis to fund benefits as prescribed by law.

I. Administration

The plan is governed by Title 11 Sections 401-699 of the Louisiana Revised Statutes. The Board of Trustees is composed of thirteen members: six elected from the active membership, three elected retired members and four ex officio members. Elected members serve staggered four-year terms. The State Treasurer, a member of the House Retirement Committee appointed by the Speaker of the House of Representatives, the chair of the Senate Retirement Committee, and the Commissioner of Administration serve as voting, ex officio members. The Board of Trustees appoints an Executive Director who is responsible for the operation of the System. The Board also retains other consultants as deemed necessary.

II. Member Contributions

Members contribute a percentage of their gross compensation, depending on plan participation:

| <u>Plan</u> | Current Contribution |
|---|-----------------------------|
| Regular Employees and Appellate Law Clerks | |
| Pre-Act 75 (hired before 7/1/2006) | 7.5% |
| Post-Act 75 (hired after 6/30/2006) | 8.0% |
| Legislators | 11.5% |
| Judges hired before 1/1/2011 | 11.5% |
| Judges hired after 12/31/2010 | 13.0% |
| Corrections Primary and Secondary | 9.0% |
| Wildlife | 9.5% |
| Peace Officers & Alcohol/Tobacco Control Officers | 9.0% |
| Bridge Police | 8.5% |
| Hazardous Duty | 9.5% |
| Harbor Police | 9.0% |
| Special Legislative Employees (Sergeant at Arms, | 9.5% |
| Secretary of Senate, Clerk of the House) | |

III. Employer Contributions

All participating employers, regardless of plan participation, contribute a percentage of their total gross payroll to the System. The employer percentage is actuarially determined and is sufficient to pay annual accruals plus an amortization charge which liquidates the System's unfunded liability as required by law. The rate is determined annually and recommended by the Public Retirement Systems' Actuarial Committee to the State Legislature.

IV. Termination

A member who terminates covered employment, regardless of plan membership, may request a refund of the member's contributions without interest. Upon re-employment, a member may reinstate the credit forfeited through termination of previous membership by repaying the refunded contributions plus interest.

V. Retirement Benefits

Service retirement benefits are payable to members who have terminated covered employment and met both age and service eligibility requirements.

1. Normal Retirement

<u>Regular Plan</u> – Members hired prior to July 1, 2006, may retire with a 2.5% annual accrual rate, at age 55 with 25 years, age 60 with 10 years or at any age with 30 years of service. Members hired on or after July 1, 2006 will be eligible at age 60 with five years of service. Members hired on or after July 1, 2015 will be eligible at age 62 with five years of service.

Note: Members may retire with 20 years at any age with benefits actuarially reduced.

<u>Judges</u> – Judges hired prior to January 1, 2011 may retire with a 3.5% annual accrual rate at any age with 18 years of service, age 55 with 12 years, age 50 with 20 years (minimum 12 years judicial), age 65 with 10 years of service, or 70 without regard to creditable service. Judges hired on or after January 1, 2011 may retire with a 3.5% annual accrual rate with five years of service at age 60. Eligibility requirements apply to Appellate Law Clerks hired prior to January 1, 2011. Judges hired on or after July 1, 2015 may retire with a 3.5% annual accrual rate with five years of service at age 62.

<u>Legislators</u>, <u>Governor</u>, <u>Lieutenant Governor</u>, <u>and State Treasurer</u> - May retire with a 3.5% annual accrual rate with 16 years of legislative service; age 50 with 20 years (minimum 12 years legislative service) or age 55 with 12 years.

<u>Correction Officers</u> – Members of the Primary Component may retire with a 2.5% annual accrual rate at age 60 with 10 years of service, age 50 with 20 years, or 20 years of service regardless of age if employed prior to August 15, 1986. Effective January 1, 2002, new members accrue 3.33% per year and are eligible for retirement at 25 years of service regardless of age or age 60 with 10 years of service. Effective June 30, 2014, certain probation and parole officers in the office of adult services of the Department of Corrections who were employed prior to December 21, 2001 and did not join the Corrections Secondary plan may retire with a 3.0% accrual rate for service earned prior to June 30, 2014 and 3.33% for service earned after June 30, 2014.

<u>Wildlife</u> – Members hired prior to July 1, 2003 may retire at age 55 with 10 years of service, or at any age with 20 years. Benefit accrual rate is 3.0% for service earned prior to July 1, 2003 and 3.33% for service earned after July 1, 2003. Members hired on or after July 1, 2003 may retire at age 60 with 10 years or at any age with 25 years of service. Benefit accrual rate is 3.33%, or 2.5% if members retire with less than 10 years of wildlife service.

<u>Peace Officers</u> – Annual accrual rate is 3.33%. Eligibility is the same as regular members hired prior to July 1, 2006.

<u>Alcohol Tobacco Control</u> – Annual accrual rate is 3.33%. Member's eligibility to retire with 25 years of service at any age, age 60 with 10 years.

<u>Bridge Police</u> – Annual accrual rate is 2.5% with 10 years at age 60, or 25 years at any age. The last 10 years of service must be served as bridge police.

<u>Hazardous Duty Plan</u> –Annual accrual rate is 3.33%. Members are eligible to retire with 12 years at age 55. The last 10 years of service must be served in a hazardous duty position.

<u>Harbor Police</u> – Annual accrual rate is 3.33%. Members are eligible to retire with 25 years at any age, 12 years at age 55, 20 years at age 45, and 10 years at age 60.

2. Benefit Formula

For all plans, monthly retirement benefits are based on a formula, which multiplies the final average compensation, by the applicable accrual rate, and by the years of creditable service, plus a \$25 per month supplemental benefit for members hired prior to July 1, 1986. Final average compensation is determined as the highest successive 36 months for all but regular members hired on or after July 1, 2006, Judges whose first membership making them eligible for LASERS membership occurred on or after January 1, 2011, and members of the Hazardous Duty Plan. For these members, final average compensation is determined as the highest successive 60 months.

3. Payment Options

A retiring member is entitled to receive the maximum benefit payable until the member's death. In lieu of the maximum benefit, the member may elect to receive a reduced benefit payable in the form of a Joint and Survivor Option, or a reduced benefit with a lump-sum payment which cannot exceed 36 monthly benefit payments. In addition, beginning July 1, 2009, members may elect to receive a reduced benefit that will increase at 2.5% annually once the retiree attains age 55. This option is not available to recipients of disability retirement benefits.

Judges hired prior to January 1, 2011 receive the maximum benefit payable without reduction for a 50% Joint and Survivor Option. Wildlife members receive the maximum benefit payable without reduction for a 75% Joint and Survivor Option.

VI. Deferred Retirement Option Program (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible member may begin participation on the first retirement eligibility date or within 60 days thereafter, for a period not to exceed 36 months. Delayed participation reduces the 36-month participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account. Upon termination of DROP, the member may continue employment and earn additional accruals to be added to the fixed pre-DROP benefit.

Upon termination of employment, the member is entitled to the fixed benefit plus post-DROP accruals, plus the individual DROP account balance, which can be paid in a lump sum, or an additional annuity based upon the account balance.

VII. Disability Retirement Benefits

Active members with 10 or more years of service credit are eligible for disability retirement benefits if determined to be disabled from performing the duties of their job. Members receive a service retirement benefit based upon their accrued retirement benefit, except as specified below:

<u>Judges</u> – A service retirement benefit, but not less than 50% of current salary.

<u>Corrections</u> – Benefit for total disability incurred in-line-of-duty service is the greater of the accrued benefit or 40% of average compensation (60% for members of the Primary Plan). If a member of the Secondary Plan has 10 or more years of service, benefit is the greater of the accrued retirement benefit or 60% of final average compensation. Otherwise, benefit is the accrued retirement benefit.

<u>Wildlife Agents</u> – Minimum total disability incurred in-line-of-duty service is 60% of average compensation.

<u>Hazardous Duty Plan</u> – Total disability incurred in-line-of-duty benefit is 75% of average compensation.

Members of the Corrections, Wildlife, Hazardous Duty, or Harbor Police plans totally and permanently disabled by an intentional act of violence while in-line-of-duty receive 100% of final average compensation.

VIII. Survivor Benefits

Members whose first employment which makes them eligible for membership in a Louisiana state retirement system occurs prior to January 1, 2011:

A surviving spouse with minor children of an active member with five years of creditable service (two years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of 1) \$300 per month, or 2) 75% of the member's benefit calculated at the 2.5% accrual rate for all creditable service.

A surviving minor child, with no surviving spouse shall receive an amount equal to the greater of 75% of compensation or \$300. Benefits to minors cease at attainment of age 18, marriage or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with 10 years of creditable service (two years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of 1) \$200 per month, or 2) 50% of the member's final average compensation.

Members whose first employment which makes them eligible for membership in a Louisiana state retirement system occurs on or after January 1, 2011:

A surviving spouse with minor children of an active member with five years of creditable service (two years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of 1) \$600 per month, or 2) 50% of the member's accrued benefit. Each child receives 50% of the spouse's benefit, up to two children. Minimum benefit based on the Option 2A equivalent for the surviving spouse.

A surviving minor child, with no surviving spouse shall receive an amount equal 50% of the benefit for surviving spouse with minor children, up to two children, divided equally among all children.

A surviving spouse without minor children of an active member with 10 years of creditable service (two years immediately prior to death) or 20 years of creditable service is entitled to a benefit based on the Option 2A equivalent for the surviving spouse.

The Option 2A equivalent is an actuarially reduced benefit whereby 100% of the actuarially reduced benefit continues for the life of the beneficiary.

A surviving spouse without minor children of an active member with a minimum of five years of creditable service in the Harbor Police Plan may receive a non-line of duty survivor benefit equal to 40% of final average compensation which ceases upon remarriage. The survivor benefit for a surviving spouse with minor children is equal to 60% of final average compensation. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse, regardless of children. Line of duty survivor benefits cease upon remarriage, and the benefit is then paid to minor children.

The survivor benefit is 100% of final salary for any member who is eligible for membership in the Hazardous Duty Plan, if killed in the line of duty by an intentional act of violence.

IX. Post-Retirement Increases

Provisions regarding future Permanent Benefit Increases (PBIs) were substantially changed by Act 399 of 2014. PBIs may be granted, if requested by the Board and approved with a two-thirds vote of both houses of legislature, provided there are sufficient funds in the Experience Account to fully fund the increase on an actuarial basis.

Experience Account Credits/Debits: After allocation of the first \$100,000,000 of investment experience gains to the Unfunded Accrued Liability, the Experience Account is credited with up to 50% of the remaining excess investment income, up to a maximum balance as described below. The \$100,000,000 threshold is indexed based upon the increase in the actuarial value of assets. Excess investment income is investment income for the prior fiscal year in excess of the expected income based on the actuarial valuation rate for that fiscal year. Balances in the Experience Account accrue interest at the actuarial rate of return during the prior year; however, all credits are limited as follows:

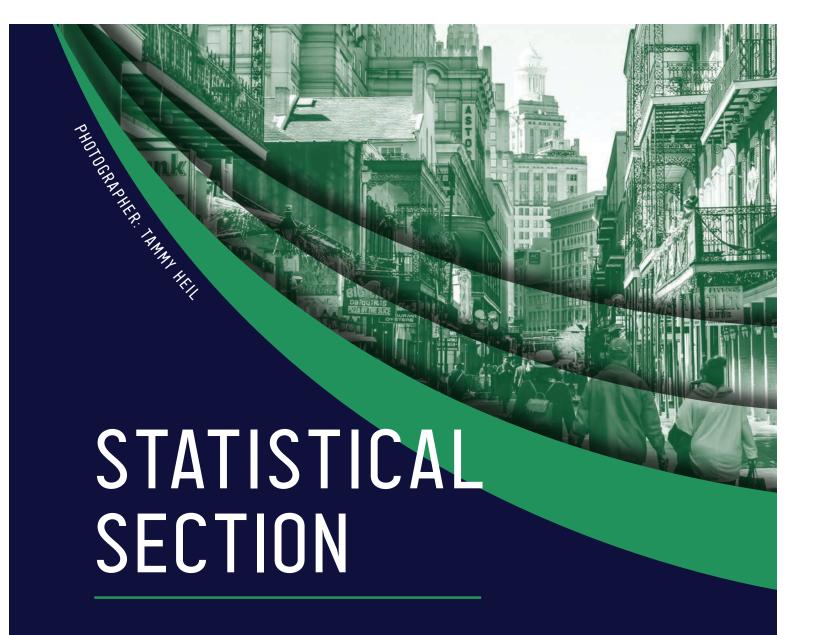

If the system's funded ratio is less than 80%, the Experience Account is limited to the reserve necessary to grant one PBI. If the funded ratio is at least 80%, the Experience Account is limited to the reserve necessary to fund two PBI's. The Experience Account is debited for the increase in actuarial accrued liability resulting from the increases.

<u>Permanent Benefit Increases</u>: No increase can be granted if the legislature granted an increase in the preceding fiscal year, unless the system is 85% funded or greater. Additionally, PBI's are limited to the lesser of the increase in the CPI-U for the twelve-month period ending on the system's valuation date, or an amount determined by the system's funded ratio:

| Funded Ratio | PBI Increase Limit |
|--------------|--------------------|
| < 55% | 0% |
| 55% to <65% | 1.5% |
| 65% to <75% | 2.0% |
| 75% to <80% | 2.5% |
| 80% + | 3.0% |

Beginning July 1, 2015, any increase is limited to the first \$60,000 of a retiree's annual benefit, increased annually by the CPI-U for the twelve-month period ending in June. If the actuarial rate of return for the prior plan year is less than 8.25%, regardless of the discount rate, the increase is limited to the lesser of 2% or the amount described above.

<u>Eligibility Requirements</u>: Benefits are restricted to those retirees who have attained the age of 60 and have been retired for at least one year. The age 60 requirement does not apply to disability retirees.

Summary

The objective of the Statistical Section is to provide financial statement users with a historical perspective, context, and detail to assist in using the information in the financial statements and the notes to the financial statements to better understand and assess LASERS economic condition. All non-accounting data is taken from LASERS internal sources except for that information which is derived from actuarial valuations.

Financial Trends

The schedules listed below provide financial trend information that assists users in understanding and assessing how LASERS financial position has changed over time:

- Changes in Fiduciary Net Position
- Valuation Assets vs. Pension Liabilities
- Employee Contribution Rates
- Employer Contribution Rates

Operational Information

The schedules listed below are intended to provide contextual information about LASERS operations to assist in assessing the System's economic condition:

- Benefit Expenses by Type
- Average Monthly Benefit Amounts
- LASERS Membership
- LASERS Changes In Membership
- Number of Benefit Recipients
- Retired Members by Recipient Type and Plan

Demographic Information

This information is intended to assist readers in understanding the environment in which LASERS operates. The demographic information includes:

- Location of LASERS Benefit Recipients
- Fiscal Year 2022 Gross Benefits Paid by Region
- Top Ten Contributing Employers by Member Count

The employee contribution rate varies by plan. The rates shown above reflect the average, rather than the actual rate contributed by each employee.

The rates above for each fiscal year are determined by prior year actuarial valuations. For example, fiscal year ended 2022 rates were determined by the fiscal year ended 2020 actuarial valuation.

^{*} Beginning in 2019, per Act 94 of 2016, administrative expenses were directly funded through employer contribution, rather than as a reduction to expected investment returns.

The rates above for each fiscal year are determined by prior year actuarial valuations. For example, fiscal year ended 2022 rates were determined by the fiscal year ended 2020 actuarial valuation, and reflect the composite employer normal cost and unfunded accrued liability rates for all plans within LASERS.

^{*} The retired member appearing in the 10-15 years of service credit column was working after DROP and was not receiving a benefit.

^{**} Years of service credit for retirees converted into LASERS was not available from FY 2016 to 2018, therefore they appear in the <5 years of service credit column.
